TRANSFORM YOUR ORGANIZATION BY HARNESSING THE WORKFORCE MOBILITY REVOLUTION

The Workforce Mobility Revolution is underway. It not only offers new ways of working by introducing an entirely new level of visibility into operations. It also presents unique opportunities for greater productivity, efficiency and accuracy.

To harness the full potential of the mobile workforce, you will need advanced mobile operating systems, devices, and software solutions. Modernization offers a chance to push the boundaries of your organization. You can redefine how things are done and implement faster, smarter processes that propel your organization forward.

This will set in motion your ability to gain complete visibility of your operations. With enterprise mobile devices providing more data – including those from barcodes, RFID, GPS, and sensors – you will know more and be able to act on more in real-time.

Zebra Solutions

In store, on the road, in your healthcare facility or in your warehouse, we can help you harness the Workforce Mobility Revolution. We have the devices, software and services that empower your workforce to work efficiently. Zebra mobile computers and tablets are designed to handle the demands of high intensity environments. Our software will provide extra functionality and security you need to increase efficiency. And our services will support you in turning your vision for an effective mobile strategy into a reality.

Mobile Computers

Android Mobile Computers

Zebra has the largest range of enterprise-optimized Android devices in the business, purpose built to maximize business agility, mobility and productivity. They're delivering improvements in efficiency and customer service for organizations in all kinds of industries, all over the world.

Highlighted Mobile Computers

TC8000	Retail Store Floor & Healthcare Solution: MC40	Field Mobility Solution: TC75	Tablet: ET50/ET55	Wearable Mobile Computers: WT6000
Designed to deliver revolutionary productivity increases in the warehouse, it saves 14% per worker versus the traditional form factors.	Empower associates to deliver service that will impress today's demanding customers and healthcare staff to deliver the best care possible.	Ready for the demands of everyday, all day use in the most demanding environments.	Flexible business tablet you can customize for just about any job – inside or outside the four walls.	Achieve operational efficiency, maximum comfort, maximum durability and increased workforce productivity with the WT6000 — putting the wearable in industrial wearable computing.

Windows 10 IoT Mobile Enterprise Mobile Computers Coming October, 2016

Microsoft Windows 10 IoT Mobile Enterprise continues to show potential in the enterprise space, and Zebra has active developments with Microsoft to grow our Win10 portfolio size and scope -- expanding our lineup.

Mobility DNA Software Solutions for Android

Business Tools

Workforce Connect

TekSpeech® Pro

SmartDEX

Productivity catalysts to optimize the way enterprise workers communicate and interact.

- Improve Workforce Communications
- Increase Worker Collaboration
- Better Workflow Efficiencies

Productivity Tools

Enterprise Keyboard

SimulScan

All-Touch Terminal Emulation

Swipe Assist

PowerPrecision

DataWedge

Quick-install support tools to provide better user experiences, faster data capture and increased productivity.

- Make Jobs Easier
- Complete Tasks Quicker
- More Accuracy & Less Downtime

Management Tools

Stage Now

MDM Tool Kit

Enterprise Home Screen

App Gallery

Device and app management simplified via centralized tools and fortified by enterprise-class security.

- Greater Control & Visibility
- Optimal Uptime
- Faster Troubleshooting

Protecting the Ecosystem

MX

Mx is a layer of features that fortifies Android™ for enterprise with superior security and control.

- Lock Apps
- Government-Grade Encryption
- Risk Protection

App Migration Solutions

With Zebra's developer tools, app migration services and support you'll accelerate the adoption of new mobility strategies with modern operating systems and devices at lower costs and risk.

Strategic Services
Analyze your application portfolio and assist with building a strategy to migrate apps in the most cost-effective and efficient way to mitigate risk.

User Experience Prototyping
Optimize processes, work flows and the overall user experience of applications. Can be used to redesign an existing app or for defining new functionality. Iterate the design and align with the business and end users.

Native, Web and Terminal App Development
Developer Tools: EMDK for Android, EMDK for Xamarin, Enterprise Browser, Rhomobile
Services: Re-writing - Zebra designs, manages, builds, tests, and supports the migration of enterprise grade native, HTML5, or cross-platform apps.

Terminal Modernization
Developer Tools: All-Touch TE Configuration Tool
Services: TE Migration - Configuration and UX optimization of Terminal Emulation apps using the All- Touch TE Utility

Compact Modernization
Developer Tools: iFactr Virtualization
Services: Migration of Compact Framework (Win Mobile/CE) applications using Zebra's iFactr Virtualization technology

Off-the-Shelf App Customization Services
Ready-made, packaged solutions rarely come ready-to-run. Use our customization services to create the solution that fits how your business operates.

App Support
Annual support agreement for that provides support for defects, OS and platform.

Learning Support
Onsite, distance and on-device learning to accelerate initial user productivity using new applications, computers and workflows.

SET YOUR MOBILITY IN MOTION.
