RFD2000 Zebra RFID Manager for Android

Release Notes for v1.0.7.22 Released 20th December 2017

Contents

Introduction

This release notes are for the RFD2000 Zebra RFID Manager for Android V1.0.7.22

Description

The RFD2000 Zebra RFID Manager for Android enables the use of the RFD2000 as an accessory RFID sled for the TC20 premium Android terminal. It provides the following RFD2000 management functions:

1. Status – A quick snapshot of the currently attached and connected RFD2000
2. Settings – Various settings for controlling notifications generated by reader
3. Firmware update – Functionality related to updating reader firmware
4. Logger – Control various logging features and capture reader and/or application logs

Device Compatibility

- RFD2000

Release Notes

- RFID Manager Application Version 1.0.7.22

Components

The zip file contains the following components:

Zebra RFID SDK for Android

- Zebra RFID Manager Application APK

Installation

Supported operating systems:

- Android 7.x and later

Developer system requirements:

- Developer Computers: Windows 7/64-bit
- Android: Android Studio (2.3 or later), and Android API Level 25 or later

---

Notes

Refer to the RFD2000 RFID User Guide for notes on RFID Zebra Mobile API application usage
