### Fixes in this Release

- SETUSBCOMP=08, same driver as previous release, but previous release used incompatible SETUSBCOMP setting (10)

### What's New in this Release

- None

### Known Issues and Limitations

- This is the last driver package with support for MC8355 (Gobi3000)

### Installation and Configuration Instructions

**To install MC8355 (Gobi3000), perform the following steps:**

1. **Disable Mobile Broadband** on the **Wireless tab** in **Motion Dashboard**
2. **Uninstall** any previously installed **Qualcomm Gobi Single Installer Package** through **Control Panel → Programs and Features**
3. Click **download** to save the **DriverPkg** to the directory of your choice.
4. **Unzip** the file to a location on your local drive.
5. Double-click **Setup.exe** and follow the prompts
6. **Enable Mobile Broadband** on the **Wireless tab** in **Motion Dashboard**

The following devices will be installed

- Sierra Wireless WWAN Device
- Sierra Wireless DM Port (COMx)
- Sierra Wireless NMEA Port (COMx)
- Sierra Wireless WWAN Modem
- Sierra Wireless Mobile Broadband Network Adapter

### Licensing

Refer to your applicable end-user licensing agreement for usage terms.
