

FOR IMMEDIATE RELEASE

ZEBRA TECHNOLOGIES AND AMERINET ANNOUNCE NEW TWO-YEAR AGREEMENT

Zebra to provide Amerinet members with its full line of bar code, card and RFID printers, supplies and services

Vernon Hills, Ill., May 2, 2006—Zebra Technologies Corporation (Nasdaq: ZBRA), a global leader in delivering on-demand specialty printing solutions for business and process improvement, has signed a new two-year, full product line agreement with Amerinet Inc., a leading healthcare group purchasing organization. The full line agreement follows a competitive bid process and makes Zebra's bar code, card and RFID printers as well as its supplies and service agreements available to Amerinet members. These products serve a wide range of applications from patient safety to materials management.

“Amerinet understands how important a healthy operating margin is for every healthcare provider,” says Damita Morris, senior contract manager, office solutions at Amerinet. “This agreement is an example of our commitment to promote quality healthcare delivery and reduce expenses. The various information technology tools Zebra offers will help Amerinet members improve safety and efficiency.”

According to The Institute of Medicine, medical errors cause up to 98,000 deaths annually in the United States alone. Bar coding applications have been shown to substantially reduce costly and dangerous medical errors, and the recent 17th Annual HIMSS Leadership Survey found that medical error reduction and patient safety will remain top business objectives for hospital IT executives in 2006. Zebra's bar coded wristbands, unit-dose pharmacy labeling and employee badge solutions help enable patient safety improvements at the bedside and throughout the hospital with patient registration/identification, medication labeling, lab specimen collection, radiology film labeling and surgical instrument tracking applications.

“Bar coding and RFID are at the heart of many patient safety initiatives,” says David Crist, vice president of sales at Zebra Technologies. “Zebra is committed to working with Amerinet and its members to deliver these solutions in a way that minimizes medical errors and enhances safety.”

Zebra and Amerinet Announce Two-Year Agreement, page 2

Zebra is a leading manufacturer of specialty thermal printing solutions including wireless, mobile and high-performance label and wristband printers designed to meet the needs of the healthcare market. Zebra also offers printing supplies, including highly durable, ready-to-print Z-Band Direct wristbands, which were awarded the 2004 Frost & Sullivan Product Leadership of the Year Award in the field of medical informatics. Use of these wristbands ensures accurate patient identification and enables healthcare providers to meet patient safety and privacy standards, such as those set by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO) and the Health Insurance Portability and Accountability Act (HIPAA). In addition, Zebra's newly introduced antimicrobial wristband coating further improves the safety and quality of care by reducing the spread of dangerous and costly hospital infections.
