

# More Power to Solve Problems, More Time for Patient Care

Solutions designed for the unique challenges facing today's  
Ambulatory Surgery Centers

OUTPATIENT

SURGERY

## At Zebra, We Understand Ambulatory Surgery Centers

Over 50 years ago, the first Ambulatory Surgery Center (ASC) opened its doors. Today there are over 9,000 ASCs in the United States with an increasing trend to move scheduled surgeries to an outpatient setting. We at Zebra understand the advantages an ASC offers over in-patient surgeries. We also understand the unique challenges this presents for each ASC, especially in today's COVID climate.

As case volumes continue to rise and competition for patients intensifies, ASCs are searching for ways to deliver a better patient experience, while increasing throughput and decreasing costs.

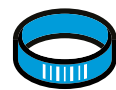

With over 50 years of innovation, Zebra's powerful, purpose-built solutions can give ASCs the tools they need to increase efficiency without compromising on quality of care. From admissions to discharge and every step in-between, Zebra products and solutions can help ASC staff with improved workflows, greater accuracy, and an enhanced patient experience.

AMBULATORY  
SURGERY CENTER

## Keep Your Workflows Moving and Patients Safe

Surgeries performed in an ASC can be 45-60% less expensive than hospitals, which provide significant savings to patients and insurers.<sup>1</sup> In addition, time spent in a surgery center is about 25% less than time spent in the hospital for the same surgery.<sup>2</sup> At Zebra, we can show ASCs how to easily integrate our products and solutions throughout the patient journey, which will provide greater patient safety, improve clinical workflows, and reduce overall costs.

### Assured Patient Safety and Care

From admissions to discharge, reduce medical errors with patient identity management solutions.

### Flawless Specimen Collection

Scan and print labels at the point of care and perform a three-point check that confirms the links between specimen collection order, the patient wristband and the labeled container.

### Accurate Medication Administration

Move from manual processes to electronic barcode medication administration ensuring the right patient receives the right medication at the right time.

### Successful Inventory Management

Gain total confidence in your asset, staff and patient intelligence by leveraging the power of data to track, locate and protect assets, staff and patients in real time.

# Build Your Custom ASC Solution with Zebra's Comprehensive Portfolio

## Scanners

### DS8100-HC Series 1D/2D Barcode Scanners

Zebra cordless and corded barcode scanners can withstand repeated exposure to harsh cleaning agents. With a seamless design and concealed screw holes, the places for bacteria to hide are virtually eliminated.

### DS9900-HC Series Hybrid Imager

The white illumination LEDs easily read color-coded barcodes on specimen trays and biopsy cassettes. With optional driver's license parsing, users can automatically populate data on patient admission forms.

### CS60-HC Series Companion Scanner

The ultra-versatile scanner adapts to any workflow. Its groundbreaking design easily converts between corded and cordless operation, handheld and hands-free, as your needs change.

## Printers

### ZD410-HC Direct Thermal Desktop Printer

Print high quality labels at the point of care with this ultra-compact printer made with disinfectant-ready plastics.

### ZD510-HC Direct Thermal Wristband Printer

Features easy-to-load cartridges containing the only antimicrobial-coated wristbands on the market. Delivers dependable wristband printing that increases patient safety and staff productivity.

### ZQ610-HC Mobile Printer

This mobile printer is lightweight and easy to use with class leading battery technology for full power shift, disinfectant-ready plastics and remote management tools.

## Supplies

### LaserBand Direct Print Laser Wristbands

Latex-free wristband employs an advanced design that makes assembly easy and allows the wristband to lie flat on a patient's wrist to enable quick scanning.

### Z-Band Thermal Wristbands

Outside laboratory tests have confirmed that Zebra wristbands withstand a wider range of hand-sanitizers in comparison to a leading competitor, ensuring scannability and reducing the instances of nurse workarounds.

### Barcode Labels

Genuine Zebra labels are available in a variety of sizes, materials, and adhesives that can withstand all types of disinfectants and storage requirements.

## Get Ahead of What's Next in Healthcare

From admissions to discharge and every step along the way, Zebra solutions help you get ahead of what's next in healthcare with fewer workarounds and more time for care.
