Installation Requirements

The following software must be installed prior to using IP Output Plug-in v1.2.

- Microsoft Windows XP, Microsoft Windows 7 or Microsoft Windows 8 Operating Systems.
- Microsoft ActiveSync 4.5 or higher for Windows XP or Mobile Device Center for Windows 7 and Windows 8.

- Before installing IP Output Plug-in on the mobile computer, ensure Symbol DataWedge 3.3 or higher is installed on the mobile computer first.

Installation Instructions

IP Output Plug-in v1.2 installation instructions.

1. Download and uncompress the IOutputPlugin010200.zip.
2. Run IOutputPlugin.msi on a PC.
3. This will install IP Output Plug-in onto the PC and, at the time of installation, if a mobile computer is connected to the PC through Microsoft ActiveSync, the installer will deploy IP Output Plug-in to the mobile computer.
4. Once installed, the "**Install IP Output Plug-in**" option can be selected from **Start Menu > Symbol IP Output Plug-in v1.2** to deploy IP Output Plug-in onto multiple mobile devices.
