Terms of Use

Proprietary Statement

This manual contains proprietary information of Zebra Technologies Corporation and its subsidiaries ("Zebra Technologies"). It is intended solely for the information and use of parties operating and maintaining the equipment described herein. Such proprietary information may not be used, reproduced, or disclosed to any other parties for any other purpose without the express, written permission of Zebra Technologies.

Product Improvements

Continuous improvement of products is a policy of Zebra Technologies. All specifications and designs are subject to change without notice.

Liability Disclaimer

Zebra Technologies takes steps to ensure that its published Engineering specifications and manuals are correct; however, errors do occur. Zebra Technologies reserves the right to correct any such errors and disclaims liability resulting therefrom.

Limitation of Liability

In no event shall Zebra Technologies or anyone else involved in the creation, production, or delivery of the accompanying product (including hardware and software) be liable for any damages whatsoever (including, without limitation, consequential damages including loss of business profits, business interruption, or loss of business information) arising out of the use of, the results of use of, or inability to use such product, even if Zebra Technologies has been advised of the possibility of such damages. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Introduction

Introducing the CS6080 Companion Scanner, featuring a groundbreaking design that easily converts between corded and cordless operation, handheld and hands-free, as your needs change. As a cordless scanner, the CS6080 is small enough to tuck in a pocket and offers the latest mobile technology including contactless charging. As a corded scanner, the CS6080 offers compact scanning for spaces with limited real-estate. Whether you purchase a corded or cordless model up front, you can change modes at any time for superior investment protection. And you get Zebra's industry-leading scanning performance and our unique DataCapture DNA and industry-preferred management tools that make it easier than ever to integrate, deploy and manage your scanners.

This guide provides basic instructions for setting up, programming, and using CS6080 scanners. The scanner is available in the following versions:
- CS6080-SR: Standard Range
- CS6080-HC: Healthcare
NOTE: This guide applies to all scanner configurations, including cordless, corded, standard range and healthcare unless specifically indicated.

Enable Night Mode Trigger

**Disable Night Mode Trigger**

Toggle Night Mode

Installing the Battery

Use the battery to charge the cordless scanner.

Inserting the Battery

1. Insert the battery into the scanner.

2. Press the battery into the scanner until the battery snaps into place.

📝 **NOTE:** If you purchased a corded configuration, using the corded USB Converter Cable and want to convert to a cordless configuration, using a battery, remove the corded USB Converter Cable prior to step 1.

Removing the Battery

To remove the battery, press the release and pull the battery away from the scanner.
Installing the Corded USB Converter Cable

Use the USB Converter Cable to connect the corded scanner to a host.

Inserting the USB Cable

1. Insert the corded USB Converter Cable into the scanner.
2. Connect the other end of the corded USB Converter Cable to a USB port on the host PC.

> **NOTE:** If you purchased a cordless configuration, using a battery and want to convert to a corded configuration, using the corded USB Converter Cable, remove the battery prior to step 1.
Removing the USB Cable

To remove the corded USB Converter Cable, press the release and pull the cable away from the scanner.

Charging

Use a cradle or charging pad to charge the cordless scanner and use the battery charger or cradle to charge spare batteries.

Charging via Cradle

NOTE: Only applies to cordless configurations.

1. Connect the cable to the cradle with the USB-C connector.
2. Connect the other end of the cable to a USB port on the host PC, or to a USB power adapter plugged into an AC outlet with the USB-A connector.
3. Insert the CS6080 into a scanner slot to begin charging.
   - In the Standard cradle, insert the scanner upright with the battery side first.
   - In the Healthcare Presentation cradle, insert the scanner upside down with the scanner window first.

Standard   Healthcare Presentation
The CS6080 begins charging. The charge
status LEDs light to indicate progress. Refer
to the CS6080 Scanner Product Reference
Guide for information on accessories and
LED indications.

Standard

1	Mounting Feet (4)
2	Mounting Hole (2) M4x5
3	Mounting Hole (2) M3x5
Healthcare Presentation

1	Mounting Holes (2) M4x5

Charging via Charging Pad

NOTE: Only applies to cordless configurations.

1. Follow the third party instructions for connecting your charging pad to power.
2. Place the scanner on the charging pad with the buttons facing up.

   The battery charging indicator LED on the scanner lights to show the charging status.

NOTE: The CS6080 is only compatible with Qi type charging pads and charging times cannot be guaranteed when using third party accessories.
Charging Spare Batteries

1. Connect the cable to the cradle with the USB-C connector.
2. Connect the other end of the cable to a USB port on the host PC, or to a USB power adapter plugged into an AC outlet with the USB-A connector.
3. Remove the spare battery slot cap.
4. Insert the battery into the spare battery slot to begin charging.

   The charge LED on the cradle lights to show the charging status.

Bluetooth Connection

To set up the scanner for communication with a host using a standard Bluetooth profile, scan one of the following barcodes.

- **Cradle Bluetooth Classic (default)** - The scanner must be paired to a cradle and the cradle communicates to the host via the host interface cable connection. Classic and BLE modes are supported.
- **HID Keyboard Profile** - The scanner connects to the PC/host via Bluetooth and performs like a Bluetooth keyboard. HID supports peripheral connections. Classic and BLE modes are supported.
- **Simple Serial Interface (SSI)**- For communication when connecting to a Zebra mobile device or PC/tablet/phone running a Zebra scanner SDK app. Classic, BLE and MFi modes are supported.
- **Serial Port Profile (SPP)** - The scanner connects to the PC/host via Bluetooth and performs like there is a serial connection. Classic Bluetooth only.

Cradle Bluetooth Classic

Cradle Bluetooth Low Energy

HID Bluetooth Classic

HID Bluetooth Low Energy (Discoverable)

SSI BT Classic (Non-Discoverable)

SPP BT Classic (Discoverable)

Scanning

To scan a bar code:

1. Aim the scanner at the bar code.
2. Press the Scan button (...).

3. Ensure the aiming dot is centered on the barcode.

The scanner beeps and the LED turns green to indicate a successful decode.

Button Actions

To actuate the buttons, apply a finite force to the button recess.

For subsequent button actuations, remove force, and then re-apply force.

Action	Description
Scan Button (...)	
Single press	Trigger
Double press	Issue connection to last known address if disconnected/if connected in HID mode to an Apple device, will send show/hide keypad
Hold for 3 seconds	Battery status
Hold until beam goes off plus 5 seconds longer	Night mode
Programmable Button (-)	
Single press (not in cradle) default*	Show/hide keypad
Single press option 2	Programmable trigger
Single press option 3	Toggle lamp mode (cordless only)
Single press in cradle	Toggle lamp mode (cordless only)

LED Indicators

Action	LED
Decode Indicator LED	
Successful decode	Green
On error	Red
Battery Indicator LED	
When in cradle and charging is complete	Solid Green
When in cradle and charging is in progress	Blinking Amber
When in cradle and there is a charging error	Fast Blinking Amber
When used in handheld mode and the Scan button (...) is pressed for 3 seconds - Full Battery	Solid Green
When used in handheld mode and the Scan button (...) is pressed for 3 seconds - Mid Charge	Solid Amber
When used in handheld mode and the Scan button (...) is pressed - Low Battery	Solid Red
Bluetooth Indicator LED	
While actively pairing	Blinking Blue
When used in hand-held mode and the Scan Button (...) is pressed for 3 seconds and Bluetooth is Connected.	Solid Blue
Bluetooth Error	Steady Red for 2 seconds

123Scan

123Scan is an easy-to-use, PC-based software tool that enables rapid and easy customized setup of a scanner via a barcode or USB cable. For more information, visit: www.zebra.com/123Scan.

Utility Functionality

- Device configuration
  - Electronic programming (USB cable)
  - Programming barcode(s)
- Data view - scan log (display scanned barcode data)
- Access asset tracking information
- Upgrade firmware and view release notes
- Remote management (SMS package generation).

Troubleshooting

Problem	Possible Solutions
Aiming pattern does not appear when pressing the scan button.	If the configuration requires a power supply, re-connect the power supply.
	Connect/re-connect the host interface cable.
	Enable the aiming pattern.
Imager comes on, but scanner does not decode the barcode.	Ensure the scanner is programmed to read the type of barcode being scanned.
	Ensure the symbol is not defaced. Scan other barcodes of the same barcode type.
	Move scanner closer to or further from barcode.
Scanner decodes barcode, but does not transmit the data to the host.	Scan the appropriate host type barcode.
	Re-connect the cable.
	Set the scanner's communication parameters to match the host's setting.
	Configure the scanner's conversion parameters properly.
	Program the correct ADF rules.
Host displays scanned data incorrectly.	Scan the appropriate host type programming barcode.
	Program the proper editing options (e.g. UPC-E to UPC-A Conversion).
Scanner battery LED turns solid red for a few seconds.	Charge the battery.

Problem	Possible Solutions
Scanner does not fully charge.	Ensure the scanner is properly seated in the cradle or properly placed on a Qi wireless charging pad.
Bluetooth LED turns off.	Scanner is out of range; move closer to the host and press any button to re-pair with the host.
Scanner emits long beeps for 5 seconds when scanning a barcode.	Memory is full; download barcode data to the host and clear the memory.

Regulatory Information

This device is approved under Zebra Technologies Corporation.

This guide applies to the following model number CS6080. All Zebra devices are designed to be compliant with the rules and regulations in thelocations they are sold and will be labeled as required.

Local language translation / Tradução do idioma local / Übersetzung in die lokale Sprache / Raduccion de idioma local / Traduction en langue locale / Prijevod na lokalni jezik / Traduzione in lingua locale / 現地語の翻訳 / 현지 언어 번역 / Перевод на местный язык / 本地語言翻譯 / 本地语言翻译 / Yerel dil çeviri /Tłumaczenie na język lokalny : zebra.com/support

Any changes or modifications to Zebra equipment not expressly approved by Zebra could void the user's authority to operate the equipment.

Declared maximum operating temperature: 50°C.

> ⚠ **CAUTION:** Only use Zebra approved and NRTL-certified accessories, battery packs and battery chargers.

Do NOT attempt to charge damp/wet mobile computers, printers or batteries. All components must be dry before connecting to an external power source.

Bluetooth® Wireless Technology

This is an approved Bluetooth® product. For more information on the Bluetooth SIG listing, please visit bluetooth.com.

Regulatory Markings

Regulatory markings subject to certification are applied to the device signifying the radio(s) is/are approved for use. Refer to the Declaration of Conformity (DoC) for details of other country markings. The DOC is available at: zebra.com/doc.

Health and Safety Recommendations
Ergonomic Recommendations

In order to avoid or minimize the potential risk of ergonomic injury, always follow good ergonomic workplace practices. Consult with your local Health & Safety Manager to ensure that you are adhering to your company's safety programs to prevent employee injury.

Safety in Hospitals and Aircraft

Wireless devices transmit radio frequency energy that may affect medical electrical equipment and aircraft's operation. Wireless devices should be switched off wherever you are requested to do so in hospitals, clinics, healthcare facilities or by airline staff. These requests are designed to prevent possible interference with sensitive equipments.

Batteries and Power Packs

This information applies to Zebra-approved batteries and power packs containing batteries.

Battery Information

CAUTION: Risk of explosion if battery is replaced by an incorrect type. Dispose of batteries according to instructions.

Use only Zebra approved batteries. Accessories which have battery charging capability are approved for use with the following battery models:
• BT-000413 (4.4 VDC, 745 mAh)
Zebra approved rechargeable battery packs are designed and constructed to the highest standards within the industry. However, there are limitations as to how long a battery can operate or be stored before needing replacement. Many factors affect the actual life cycle of a battery pack such as heat, cold, harsh environmental conditions, and severe drops.
When batteries are stored over six months, some irreversible deterioration in overall battery quality may occur. Store batteries at half charge in a dry, cool place, removed from the equipment to prevent loss of capacity, rusting of metallic parts, and electrolyte leakage. When storing batteries for one year or longer, the charge level should be verified at least once a year and charged to half charge.
Replace the battery when a significant loss of run time is detected.
Standard warranty period for the CS6080 battery is one month, regardless if the battery was purchased separately or included as part of the host device. For more information on Zebra batteries, please visit:
zebra.com/batterydocumentation and select the Battery Best Practices link.

Battery Safety Guidelines

IMPORTANT: SAFETY INSTRUCTIONS - SAVE THESE INSTRUCTIONS

⚠ **WARNING:** When using this product basic safety precautions should always be followed, including the following:

The area in which the units are charged should be clear of debris and combustible materials or chemicals. Particular care should be taken where the device is charged in a non-commercial environment.

- Read all the instructions before using the product.
- Follow battery usage, storage, and charging guidelines found in the user's guide.
- Improper battery use may result in a fire, explosion, or other hazard.

To charge the mobile device battery, the battery and charger temperatures must be between 0°C and +40°C (+32°F and +104°F).

Do not use incompatible batteries and chargers. Use of an incompatible battery or charger may present a risk of fire, explosion, leakage, or other hazard. If you have any questions about the compatibility of a battery or a charger, contact Zebra support.

Do not disassemble or open, crush, bend or deform, puncture, or shred. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion, or risk of injury.

Severe impact from dropping any battery-operated device on a hard surface could cause the battery to overheat.

Do not short circuit a battery or allow metallic or conductive objects to contact the battery terminals.

Do not modify, disassemble, or remanufacture, attempt to insert foreign objects into the battery, immerse or expose to water, rain, snow or other liquids, or expose to fire, explosion, or other hazard.

Do not leave or store the equipment in or near areas that might get very hot, such as in a parked vehicle near a radiator or other heat source. Do not place battery into a microwave oven or dryer.

To reduce the risk of injury, close supervision is necessary when used near children.

Please follow local regulations to promptly dispose of used re-chargeable batteries.

Do not dispose of batteries in fire. Exposure to temperatures over 100°C (212°F) may cause explosion.

Seek medical advice immediately if a battery has been swallowed.

In the event of a battery leak, do not allow the liquid to come in contact with the skin or eyes. If contact has been made, wash the affected area with large amounts of water and seek medical advice.

If you suspect damage to your equipment or battery, contact Zebra support to arrange for inspection.

Do not use a power pack in excess of its output rating. Overload outputs may result in risk of fire or injury to persons. Have service performed by a qualified Zebra service center. This will ensure safety of the product is maintained.

⚠ **RF Exposure Guidelines**

Safety Information

Reducing RF Exposure - Use Properly

Only operate the device in accordance with the instructions supplied.

The device complies with internationally recognized standards covering human exposure to electromagnetic fields. For information on international human exposure to electromagnetic fields, refer to the Zebra Declaration of Conformity (DoC) at zebra.com/doc.

Use only Zebra tested and approved headset, belt-clips, holsters, and similar accessories to ensure RF exposure compliance. If applicable, follow the instructions for use as detailed in the accessory guide.

The use of third-party belt clips, holsters, and similar accessories may not comply with RF exposure compliance requirements and should be avoided.

For further information on the safety of RF energy from wireless devices, refer to RF exposure and assessment standards section at: zebra.com/responsibility.

LED Devices

Classified as "EXEMPT RISK GROUP" according to IEC 62471:2006 and EN 62471:2008.

United States and Canada Regulatory

Radio Frequency Interference Notices

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

📝 **NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna
• Increase the separation between the equipment and receiver
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
• Consult the dealer or an experienced radio/TV technician for help.

Radio Frequency Interference Requirements- Canada

Innovation, Science and Economic Development Canada ICES-003 Compliance Label: CAN ICES-3 ([B])/NMB-3([B])
This device complies with Innovation, Science and Economic Development Canada's licence-exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause interference; and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radio électrique subi même si le brouillage est susceptible d'en compromettre le fonctionnement.

RF Exposure Requirements - FCC and ISED

The FCC has granted an Equipment Authorization for this device with all reported SAR levels evaluated in compliance with the FCC RF emission guidelines. SAR information on this device is on file with the FCC and can be found under the Display Grant section of fcc.gov/oet/ea/fccid.

Brasil

Este equipamento não tem direito à proteção contra interferência prejudicial e não pode causar interferência em sistemas devidamente autorizados.

低功率電波輻射性電機管理辦法

第十二條

經型式認證合格之低功率射頻電機，非經許可，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。

第十四條

低功率射頻電機之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。

前項合法通信，指依電信法規定作業之無線電通信。

低功率射頻電機須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。

For Australia Only:

This warranty is given by Zebra Technologies Asia Pacific Pte. Ltd., 71 Robinson Road, #05-02/03, Singapore 068895, Singapore. Our goods come with guarantees that cannot be excluded under the Australia Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. Zebra Technologies Corporation Australia's limited warranty above is in addition to any rights and remedies you may have under the Australian Consumer Law. If you have any queries, please call Zebra
