

Zebra Provisioning Manager Version 3.1.26106

Release Notes April – 2026

Highlights

Release v3.1.26106 of the Zebra Provisioning Manager is now available for customer access. This release contains the following updates.

- Apply Premium License to Standard PBX
- Security and Maintenance updates

New in Zebra Provisioning Manager v3.1.26106

Apply Premium License to Standard PBX

This feature enables the use of premium licenses as a fallback mechanism when standard licenses are either expired or fully consumed. It is designed to address situations where customers cannot renew standard licenses and need to use premium licenses for all PBXs, including those that would typically use a standard license.

Security and Maintenance updates

Usage Notes

- The Provisioning Manager URL is <https://wfc-provisioning1.pttpro.zebra.com/admin/login>. To request portal access to the Zebra Provisioning Manager, contact Zebra support.
- Bootstrapping is supported with the following client versions:

Client	Version
Zebra Voice	9.0.25404
PTT Pro Android	3.3.10361
Profile Client	2.0.25401

- Feature-based licensing as provided by the Provisioning Manager is first supported in Zebra Voice v9.0.20306. The customer may view the licensed devices in the Provisioning Manager portal, in the Licensing/Assigned tab.
- The customer may release standard licenses from specific devices by obsoleting them in the Extension Manager portal, in the Portal/Devices tab.
- **Important:** Note that premium licenses can only be used for premium PBXs. Standard PBXs require standard licenses. Customer with premium licenses should ensure that their devices are all configured to use premium PBXs.
- Licensing notes:
 - Existing 9.x customers upgrading to Zebra Voice v9.0.20306 must contact Zebra to enable the migration of their current licenses to AID-free licensing.

- Licenses for the Zebra Voice Client 9.x may include a 30-day grace period. The client will display the expiration date including the 30-day grace period, but any renewals will be based off the actual expiration date. Refer to your entitlement email from Zebra Onboarding for your actual expiration date.
- 3rd party device support for stand-alone clients requires the following client versions:
 - Zebra-Voice v9.0.22308 or above (Zebra Voice is not supported on iOS devices)
 - PTT Pro Android v3.3.10197 or above
 - PTT Pro iOS v1.0.11086 or above

Refer to PFM release notes for client versions supporting 3rd party devices using PFM deployments.

Known Issues

- None
