

V66.17.11Z and earlier

Summary of Firmware Release

This document summarizes the following V66.17.x firmware releases:

Firmware	Release Date	Page	Firmware	Release Date	Page	Firmware	Release Date	Page
V66.17.11Z	15 May 2014	1	V66.17.9ZA	08 July 2011	2	V66.17.4Z	11 March 2010	2
V66.17.10Z	10 October 2013	1	V66.17.9Z	11 November 2010	2			

V66.17.11Z

Release Date: 15 May 2014

This firmware is for use with the following printer models:

- KR403™

This firmware includes all features of the previous V66.17.10Z.

Changes

None.

Issues Corrected

- The Auto-Load feature has been enhanced.

V66.17.10Z

Release Date: 10 October 2013

This firmware is for use with the following printer models:

- KR403™

This firmware includes all features of the previous V66.17.9ZA.

Changes

None.

Issues Corrected

- The issue where a printer could display a flashing Red-Green LED immediately after a power cycle has been fixed.

V66.17.9ZA

Release Date: 08 July 2011

This firmware is for use with the following printer models:

- KR403™

This firmware includes all features of the previous V66.17.9Z.

Changes

None.

Issues Corrected

- When in vertical mode, the presenter movement has been adjusted to ensure that the paper will eject correctly.
- Presenter operation when using continuous variable formats in vertical mode has been improved.

V66.17.9Z

Release Date: 11 November 2010

This firmware is for use with the following printer models:

- KR403™

This firmware includes all features of the previous V66.17.4Z.

Changes

This is the initial release supporting the integrated 10/100 Ethernet option. See the KR403 Integrator Guide and the Zebra Programming Guide for additional information on this option.

Issues Corrected

- The printer will now disable the two-flash manual calibration button function when the ^MPC command is used.
- The printer will now ignore a second ^PW command within a single format.

V66.17.4Z

Release Date: 11 March 2010

This firmware is for use with the following printer models:

- KR403

Important • V66.17.4Z should not be downloaded to printers with the part numbers P1009545-3 or P1009545-4. The printer part number is printed on a label on the printer itself. Printers with these part numbers offer the integrated 10/100 Ethernet option, which is not supported by the V66.17.4Z firmware.

Features

Support for new Kiosk specific Set/Get/Do and ZPL commands:

Set/Get/Do Commands	ZPL Commands
