

Important Safety and Regulatory Information for the ZebraNet® PS4000 Print System

Keep this Guide readily accessible. It contains important safety information.

Battery and Power Supply Safety

Caution • Use the Correct Zebra Power Source

Use the ZebraNet PS4000 Print System only with the Zebra Technologies Model LA-24 Battery Pack and its charger power supply. Follow the safety and usage guide provided with the LA-24 Battery Pack.

Use of any power supply not approved specifically by Zebra for use with the ZebraNet PS4000 Print System and the LA-24 Battery Pack could damage to the server and will void the warranty.

Caution • Ensure Correct AC Compatibility

- Ensure that the ZebraNet PS4000 Print System battery charger power supply is supplied with the proper AC power cord for the intended country of use .
- The Charger Power Supply must be plugged into a properly grounded AC outlet.

Important • Charger Power Supply Location

- Use care in locating the Charger Power Supply. Never locate the power supply near any source of combustible material. Do not place it in locations where liquids or metallic objects may be dropped into the Power Supply.
- Ensure the Charger Power Supply has adequate ventilation.

Important • Indoor Use Only

The Charger Power Supply shipped with the ZebraNet PS4000 Print System is intended for indoor use only.

Important • Power Supply Maintenance

- Clean only with a dry or slightly damp, lint free cloth.
- Never operate a Charger Power Supply that has been damaged in any way.
- Do not disassemble the Charger Power Supply. There are no user serviceable components inside.

Print System Safety

Caution • Locate the Print System Properly

- Locate the Print System where its installation will not interfere with normal movement of personnel.
- Ensure that all cabling connecting the Print System and the power supply are properly secured so that they will not present a hazard to personnel movement.
- Do not disassemble the Print System. There are no user serviceable components inside..

Important • Indoor Use Only

The ZebraNet PS4000 Print System is intended for indoor use only.

continued

Important • Use Only With Zebra Printers

The ZebraNet PS4000 Print System is intended for use only with Zebra Model LP and TLP28xx series and Models R2844-Z and R402 desktop printers. Use of this server with printers not specified by Zebra may result in unreliable performance. Zebra will not provide technical support for this product with use with third party printers

Always observe the Thermal Printer Safety Guidelines below..

Important • Use Only Zebra Cables

If using the Print System with an auxiliary printer only use the cables specified by Zebra to connect this printer to the System and to supply power to any printers or ancillary equipment. Failure to do so will void the warranty and could cause damage to any equipment so connected.

Thermal Printer Safety

Important • Indoor Use Only

Any printer and/or any associated power supply which is a component of the ZebraNet PS4000 Print System should never be operated in a location where either one can get wet. Personal injury could result.

Important • Use Approved Media

Always use high-quality, approved labels and tags. If adhesive backed labels are used that DO NOT lay flat on the backing liner, the exposed edges may stick to the label guides and rollers inside the printer, causing the label to peel off from the liner and jam the printer.

Caution • Static Discharge

The discharge of electrostatic energy that accumulates on the surface of the human body or other surfaces can damage or destroy the print head or electronic components used in this device. DO NOT TOUCH the print head or the electronic components under the top cover.

Caution • Thermal Printing

The print head becomes hot while printing. To protect from damaging the print head and risk of personal injury, avoid touching the print head. Use only the cleaning pen to perform maintenance.

Radio Regulatory Information

ZebraNet PS4000 Using the 802.11g Radio

The following section only applies when the 802.11g radio (with FCC ID: I28MD-ZLAN11G) is installed in a ZebraNet PS4000 Print System. The antenna used for this transmitter must not be co-located or must not operate in conjunction with any other antenna.

Caution • The ZebraNet PS4000 Print System contains a Radio Frequency transmitter. To ensure compliance with the FCC's rules for Radio Frequency Exposure a minimum separation distance of 8 inches (20 cm) must be maintained between this device and all persons during device operations. If this minimum distance cannot be maintained then exposure to RF levels that exceed the FCC's limits may result..

European Regulatory Information for this Radio

AT	BE	CY	CZ	DK
EE	FI	FR	DE	GR
HU	IE	IT	LV	LT
LU	MT	NL	PL	PT
SK	SI	ES	SE	GB

Note: -Member states in the EU with restrictive use for this device are crossed out!
This device is also authorized for use in all EFTA member states (CH, IS, LI, NO)

Europe – EU Declaration of Conformity

	Important Notice: This device is a portable RF printer intended for commercial and industrial use in all EU and EFTA member states except in France where restrictive use applies.
---	--

This device complies with the essential requirements of the R&TTE Directive 1999/5/EC. The following test methods have been applied in order to prove presumption of compliance with the R&TTE Directive 1999/5/EC:

- EN55022:1998
European Emissions Standard
- EN 60950: 2000
Safety of Information Technology Equipment
- EN 300 328-2 V1.2.1 (2001-12)
Technical requirements for spread-spectrum radio equipment
- EN 301 489-17 V1.2.1 (2002-08)
EMC requirements for spread-spectrum radio equipment.

continued

This device is a 2.4 GHz wireless LAN transceiver, intended for indoor home and office use in all EU and EFTA member states, except in France where restrictive use applies. The use of this frequency band in France is subject to restrictions. You may only use channels 10 and 11 (2457 and 2462 MHz) on French territory, except in those French departments as listed in the table below where channels 1-13 (2412-2472 MHz) may be used.
