EM220II Quad Charger Installation Guide

Information
This installation guide provides information required for product installation and use. The EM220II Quad charger offers simultaneous recharging of up to four EM220II printer batteries.

Components
- Quad Charger
- AC/DC Adaptor
- Power Cord
- Installation Guide

Installation Precautions
1. Avoid placement under direct sunlight and/or locations subject to excessive heat.
2. Do not use or store in locations subject to high temperatures and/or humidity.
3. Do not use or store in dusty locations.
4. Do not install in unstable and/or non-level locations.
5. Subjecting the product to strong vibration and/or shock can cause damage.
6. Secure sufficient space in the installation area to facilitate easy usage.

Connecting the cables
1. Connect the power cord to the adaptor, and connect the adaptor to the power connector of the Quad Charger.
2. Plug the power cord into a power outlet. Input power is 100 ~ 240VAC, 50/60Hz, 1.0A.
3. When the power is supplied, the yellow, green and red LED are on for three seconds and do the self-test.

WARNING
Use only designated AC/DC adaptor. (12VDC, 3A)

NOTE
Battery charging status descriptions are as follows.

<table>
<thead>
<tr>
<th>LED</th>
<th>Charging Status</th>
<th>Charge Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Red LED On</td>
<td>Charging</td>
<td>2.5 hours</td>
</tr>
<tr>
<td>Green LED Blinking</td>
<td>Over 80% Charged</td>
<td></td>
</tr>
<tr>
<td>Green LED On</td>
<td>Fully Charged</td>
<td></td>
</tr>
<tr>
<td>Red LED Blinking</td>
<td>Replace or Reinstall Battery</td>
<td></td>
</tr>
</tbody>
</table>

CAUTION
1. If the red LED of the charger blinks, install the battery again.
2. If the red LED continues to blink despite several attempts (4 ~ 5 times) to install the battery, contact your local dealer.
3. The charging time may vary depending on the type of the charger or ambient temperature.

WEEE (Waste Electrical and Electric Equipment)
This marking shown on the product or its literature, indicates that it should not be disposed with other household wastes at the end of its working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the sustainable reuse of material resources. Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally safe recycling. Business users should contact their supplier and check the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes for disposal.

Battery Charging
1. Fasten batteries via the battery hooks into the Quad Charger as shown above.
2. Push the battery in until a snapping sound is emitted.
3. Charging begins as soon as the battery is completely inserted. Batteries are charged to 8.4VDC, 0.8A.
4. Push the hook and pull up to extract the battery.

NOTE
Battery charging status descriptions are as follows.

</tbody>
</table>

CAUTION
1. Initially, Quad Charger performs self test when power is on. When error occurs, Yellow LED will be blinking.
2. When Yellow LED is blinking continuously, remove the battery and check if alien substance is on the contact socket on Printer or Quad Charger. Then disconnect and connect power cord 4 to 5 times to check connection status.
3. Yellow LED is still blinking with above procedures, contact your local dealer.
