This installation guide provides information required for product installation and use. The ZQ110 Quad Battery Charger offers simultaneous recharging of up to four ZQ110 printer batteries.

**Components**
- Quad Battery Charger
- Adapter for Quad Battery Charger / Docking Cradle
- Power Cord
- Installation Guide

**Installation Precautions**
1. Avoid placing in direct sunlight and/or locations subject to excessive heat.
2. Do not use or store in locations subject to high temperatures and/or humidity.
3. Do not use or store in dusty locations.
4. Do not install in unstable and/or non-level locations.
5. Subjecting the product to strong vibration and/or shock can cause damage.
6. Secure sufficient space in the installation area to facilitate easy usage.

**Connecting the cables**
1. Connect the power cord to the adaptor of the Quad Battery Charger and then connect the adaptor to the power connector of the Quad Battery Charger.
2. Plug the power cord into a power outlet. Input power is 100-240VAC, 50/60Hz, 1.0A.
3. When the power is on, the amber, green, and red LEDs are lit for three seconds.

**WARNING**
Use only the designated Adaptor for the Quad Battery Charger/ Docking Cradle.
(12VDC, 3A)

**NOTE**

<table>
<thead>
<tr>
<th>LED</th>
<th>Charging Status</th>
<th>Charge Time</th>
</tr>

</tbody>
</table>

**CAUTION**
1. Initially, the Quad Battery Charger performs the self-test when power is on. If an error occurs, the red LED will blink.
2. If the red LED is blinking continuously, remove the battery. Check if there is foreign substance on the battery contact of the printer or the Quad Battery Charger. Then, disconnect and connect power cord 4 to 5 times to check connection status.
3. If the red LED is still blinking after performing the above procedures, contact your local dealer.
