Introduction

The purpose of this document is to describe how to install the Zebra ZXP Series 1 and ZXP Series 3 Card Printer driver on a computer running the Mac OS X operating system.

The Zebra ZXP Series 1 and ZXP Series 3 Card Printer driver for Mac OS X supports monochrome and color printing, single- and double-sided printing, mag encoding, and provides information about the printer and ribbon.

The Zebra ZXP Series 1 and ZXP Series 3 Card Printer driver for Mac OS X supports—and has been tested on—the following version of Mac OS X:

- Mac OS X Yosemite (Version 10.10) 64 bit OS
- Mac OS X El Capitan (Version 10.11) 64 bit OS
Extracting files

Double-click on the Unified_Zebra_ZXPS3_S1_Card_Printer_Mac_Driver-1.0.0.0.pkg binary file to initiate installation of the driver.

Note • The installation can be performed only in Administrator mode—type the Administrator password when prompted.

Important • Ensure the Security & Privacy settings of the system are set to “Allow apps downloaded from: Anywhere.”

The installation program will check to see if the software can be installed on the computer—click Continue to proceed, or click Cancel to stop the installation.

Follow the instructions presented at the Introduction window and click Continue.
The License window will display the End User License Agreement (EULA)—click Print to print the EULA, click Save to save the EULA as a file on the computer, click Go Back to return to the Introduction window, or click Continue to proceed with the installation.

At the License Agreement acceptance dialog, click Agree to agree the terms of the EULA proceed with the installation, or click Disagree to quit the installer. Click Read License to return to the License window.
Select the appropriate printer type: USB, or Ethernet.
USB Printer Driver Installation

Select **USB Printer** and click Continue.

![USB Printer Driver Installation](image)

**Important** • Do not plug in the USB printer until prompted to do so, or after the installation is complete.

The Installation Type window will be displayed and shows the space needed to install the necessary files.

Click **Install** to continue, or click **Go Back** to return to the Printer Type window.

![Installation Type Window](image)

The Following files will be copied into the Mac System during installation.

```
/Library/Printers/PPDs/Contents/Resources/ZebraZXPS11Printer.ppd.gz
/Library/Printers/PPDs/Contents/Resources/ZebraZXPS31Printer.ppd.gz
/Library/Printers/PPDs/Contents/Resources/ZebraZXPS32Printer.ppd.gz
/Library/Printers/PPDs/Contents/Resources/ZebraZXPS32CPrinter.ppd.gz
```
After completing the installation, the window will display the installation successful message; click Close.
Ethernet Printer Driver Installation

Select **Ethernet Printer** and click **Continue**.

Select the printer type by clicking the radio button next to the printer: ZXPS 11 for the ZXP Series 1, ZXPS 31 for the ZXP Series 3 (single-sided), or ZXPS 32 for the ZXP Series 3 (double-sided).

From the drop-down list, select the desired printer.
The Installation Type window will be displayed and shows the space needed to install the necessary files.

Click **Install** to continue, or click **Go Back** to return to the Printer Type window.

The following files will be copied to the following directory.

- /Library/Printers/Zebra_ZXPS3_S1_Card_Printer_Driver/LUTFiles/ZEP32ImgCorrection.txt
- /Library/Printers/Zebra_ZXPS3_S1_Card_Printer_Driver/LUTFiles/ZEP32Lookup.txt
- /Library/Printers/Zebra_ZXPS3_S1_Card_Printer_Driver/LUTFiles/ZEP32LookupKd.txt
- /Library/Printers/Zebra_ZXPS3_S1_Card_Printer_Driver/LUTFiles/ZEP32Lookup_2.txt
- /Library/Printers/Zebra_ZXPS3_S1_Card_Printer_Driver/LUTFiles/ZEP32ProcessParams.txt
- /Library/Printers/Zebra_ZXPS3_S1_Card_Printer_Driver/LUTFiles/ZEP32ProcessParams_2.txt
- /Library/Printers/Zebra_ZXPS3_S1_Card_Printer_Driver/LUTFiles/ZEP32ThermalSmear.txt
- /Library/Printers/Zebra_ZXPS3_S1_Card_Printer_Driver/rastertozxp3
- /Library/Printers/Zebra_ZXPS3_S1_Card_Printer_Driver/zebrazxps3s1.icns
- /Library/Printers/Zebra_ZXPS3_S1_Card_Printer_Driver/scripts/LaunchConfig.app
- /Library/Printers/Zebra_ZXPS3_S1_Card_Printer_Driver/scripts/Remove_ZebraZXPS3S1_Printer
- /usr/libexec/cups/filter/rastertozxp3
- /Applications/ZebraZXPS3-S1DriverUninstall
- /usr/share/cups/MODEL/ ZebraZXPS11Printer.ppd
- /usr/share/cups/MODEL/ ZebraZXPS31Printer.ppd
- /usr/share/cups/MODEL/ ZebraZXPS32Printer.ppd
- /usr/share/cups/MODEL/ ZebraZXPS32CPrinter.ppd
After completing the installation, the window will display the installation successful message; click Close.
Uninstall

Note • The driver uninstall can only be performed in Administrator mode.

To uninstall the Zebra ZXP Series 1 and ZXP Series 3 Card Printer Mac OS X Driver, type “ZebraZXPS3-S1DriverUninstall” in the Spotlight Search (which is available in the top right corner of the screen, or use Command + Space). The uninstall app can also be located in the application directory.
The uninstaller will prompt for the administrator password two times, enter the administrator password and click **OK** to proceed.

The uninstaller will remove the driver files and installed printers. Click **OK** to close the installer.
