# Zebra Validation Program

## Application Test Overview

### centvia

### Summary

- [Centvia](#) was created by [Centrategy, LLC](#) to allow developers to seamlessly, quickly, and reliably add printing to their mobile applications. With full printing functionality on both Android and iOS platforms, centvia print-enables web, hybrid, and native mobile applications.
- The Zebra Global Validation team worked with Centrategy to test and validate centvia with Zebra iMZ Series, QLn Series, ZQ110, and ZT200 Series printers.
- [Download](#) centvia from the Apple App Store<sup>SM</sup> for iOS.
- [Download](#) centvia from the Google Play Store for Android.

### Product Details

**Description:** centvia extends printing functions to mobile applications, everything from discovering available printers and selecting a printer, to sending print data provided by mobile applications to the selected printer. Key features include:

- One touch printing
- Extends printing to web, hybrid, and native apps
- Compatible with Android and iOS devices
- Bluetooth and WiFi connectivity
- Printer discovery and selection
- Printer status checking and retries
- Print document management
- Return to caller app

**Verticals:** Finance & Banking, Government, Healthcare, Hospitality, Manufacturing, Retail, Services, Transportation, and Logistics.

### Validated Application Details

ISV Application:	centvia
Company:	Centrategy LLC, dba <a href="#">CentSoftware</a>
Software Version:	3.0
Hardware:	<ul style="list-style-type: none"> <li>- Apple iPad: iOS 8.0.2</li> <li>- Samsung Galaxy S4 Phone: Android version 4.3</li> <li>- LG G3: Android version 4.4.2</li> </ul>
Operating System(s):	<ul style="list-style-type: none"> <li>- iOS 8.0.2</li> <li>- Android 4.3 and 4.4.2</li> </ul>
Command Language:	ZPL, CPCL, ESC POS
