## Application Test Overview

### Kodit UDI Cloud Solution V1.2

#### Summary

The [Kodit UDI Cloud solution](#) provides the most efficient and user friendly tool for manufacturers of medical devices to document, certify (FDA, GS1, NHS), and label their products.

#### Product Details

**Description:** Kodit has an end to end solution which incorporates cloud based software with up to the minute hardware, giving you a full audit trail of your labels as well as addressing current and future UDI compliance issues for both the FDA and the NHS. The KUDI service will:

- Enable you to design & print GS1 compliant labels.
- Provide GS1 compliant barcode printing direct to your label printers or as formatted print files for input into customer specific printing processes.
- Provide the necessary HL7 or 1WorldSync data feed to the FDA Database and more, clearing products to be commercially distributed to the US, and other countries as standards are released. (NHS)
- Provide a connect key into 1WorldSync, a seamless and proven process for your company to collect, store, distribute, and manage your product information with customers, trading partners, and to populate in the FDA’s Global UDI Database (GUDID) and the NHS data pool.
- Give you a secure global cloud infrastructure with built in back-up for your product data provided by Fujitsu.
- Integrate with common ERP Manufacturing systems to avoid the need for re-keying information and serial numbers

**Verticals:** Healthcare, Manufacturing

#### Validated Application Details

ISV Application:	Kodit – UDI Cloud Solution
Company:	<a href="#">Kodit UDI Limited</a>
Software Version:	1.2
Hardware:	Server, PC Desktop, MacBook Pro
Operating System(s):	On Servers: Windows Server 2008 R2 SE 64bits - On Clients Windows 7, OSX Yosemite 10.10.3, Ubuntu 14.04.2 64bits
Command Language:	ZPLII, SGD
Formatting Method:	Link-OS SDK 2.8.2148
