# Zebra Validation Program

## Application Test Overview

### SOTI MobiControl version: 12.0.0.18204

## Summary

- [SOTI MobilControl](#) by [SOTI](#) manages all stages of mobile device deployment to provide seamless enterprise mobility management. MobiControl delivers simplified, broadened and accelerated mobility endpoint management by leveraging the latest developments in enterprise mobility management.

## Product Details

**Description:** The Zebra SOTI MobiControl Connector partners with the SOTI MobiControl server to manage your Zebra Link-OS™ printers.

Managing your printer deployment across a distributed network can be complex and time consuming for your IT department - resulting in resource utilization inefficiencies and IT budget overruns. With SOTI MobiControl, IT administrators can keep on top of their Zebra mobile printer deployment with comprehensive support for over-the-air configuration, firmware upgrades, device analytics and printer label settings. SOTI MobiControl is a comprehensive solution that enables IT to manage the entire asset base of Zebra Link-OS wireless and Ethernet connected printers from a single pane of glass. You can empower your IT to manage the entire lifecycle of Zebra printer from deployment to decommissioning.

Benefits:

- Printer Discovery and Enrolment - Automatically discover connected Zebra printers and enroll them into management
- Printer Configuration - Remotely configure connected printers specific to a business workflow or re-purpose existing assets for redeployment in a different workflow
- Printer Information - Track vital printer health to ensure uptime and printer utility, retrieve printer logs
- Proactive Asset Management - Create actionable alerts, data collection rules, and reports
- Remote Update Management - Remotely deliver font packages, printer images, and firmware updates without user intervention

**Verticals:** General
