

Zebra Validation Program

Application Test Overview

iZatPark V1.7.4

Summary

[Unity Five Ltd](#) has developed a next-generation solution to mobile parking enforcement. [iZatPark](#) allows customers to enter data and print parking tickets on the street from their Zebra ZQ520 and iMZ320 printers.

Product Details

Description: [iZatPark](#) App is fully integrated with ZatPark back-office system. The app is used to issue and print parking tickets and take photographic evidence with the camera. The App sends data to the back-office system for processing. Key features include:

- Add/Edit parking tickets
- Fully customizable printing
- Image capture
- GPS coordinates
- Postal tickets issue
- Patrol log, integration with cashless parking providers

Verticals: Government

Validated Application Details

ISV Application:	iZatPark	
Company:	Unify Five Ltd	
Software Version:	1.7.4	
Hardware:	iPhone 3GS/4/4S/5/5S/6, iPad, iPad 2	
Operating System(s):	iOS 6.0	
Command Language:	ZPLII	
Formatting Method:	Link-OS iOS SDK 1.3.924	

Zebra Hardware:	Zebra ZQ520	
Part #:	ZQ52-AUE0000-00	
Description:	ZQ520 – Zebra Mobile Printer	
Firmware Version:	V72.19.9ZP26578	

Zebra Validation Program

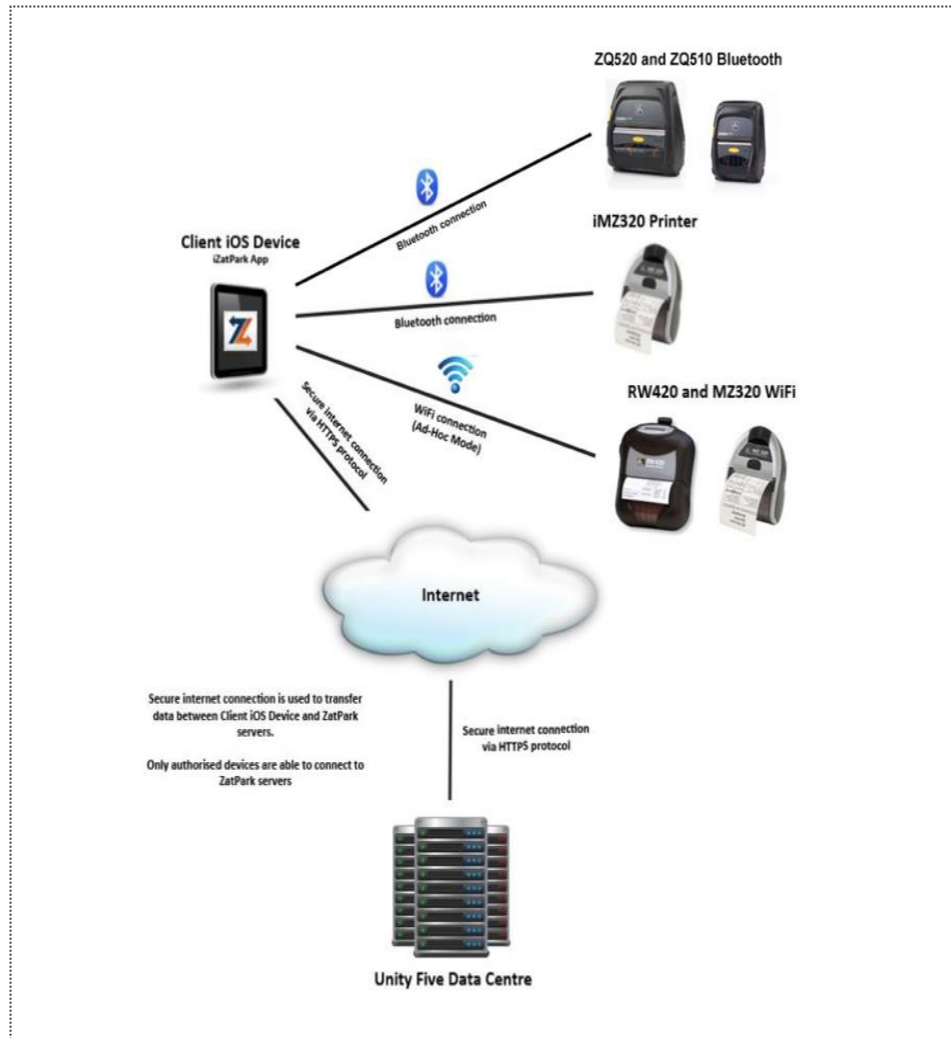

Application Test Overview

iZatPark V1.7.4

Zebra Hardware: Zebra IMZ320		
Part #:	M3I-0UB0E060-00 / M3I-0UN0E060-00	
Description:	IMZ320 – Zebra Mobile Printer	
Firmware Version:	V73.19.10Z	
Zebra Hardware: Zebra RW420		
Part #:	R4D-0UGA000E-00	
Description:	RW420 – Zebra Mobile Printer	
Firmware Version:	SHSTZ11p10
