

Zebra Introduces Direct Connections to SAP® Auto-ID Infrastructure v2.1 to Simplify RFID Printer/Encoder Integration

Zebra Technologies has the only RFID smart label printer/encoders with built-in features to interface with SAP Auto-ID Infrastructure. This gives Zebra customers a direct connection for integrating smart label printing with SAP without any additional programming or middleware. Take advantage of Zebra's connections to save development time and expenses, experience lower total cost of ownership, and enjoy the confidence of using SAP's preferred RFID connectivity platform.

How do you print RFID labels from SAP? You've got to have connections. You've got to have Zebra.

Features and Benefits

Co-Developed with SAP

- Zebra, in cooperation with SAP, developed printer firmware that gives Zebra's R110Xi mission-critical smart label printer/encoder a seamless interface with SAP Auto-ID Infrastructure v2.1.

Direct Connectivity

- SAP Auto-ID Infrastructure is an extension of SAP NetWeaver™ 04 that uses Extensible Markup Language (XML) to interface peripheral devices, such as printers. Zebra is the first company to develop and bring to market an XML-enabled bar code and RFID smart label printing solution designed for companies using ERP applications such as SAP.

First SAP-Supported RFID Printer/Encoder

- The high-performance R110Xi is the first smart label printer/encoder supported by SAP.

RFID Leadership

- SAP users can rely on Zebra's new R110Xi multi-protocol printer/encoder. Built upon Zebra's proven *XIIIPlus* platform, the R110Xi is designed for high performance and mission-critical ruggedness in the most demanding environments.

The R110Xi supports these tag types:

- EPC Class 1
 - EPC Class 0
 - Matrics 0+ (read/write)
 - ISO 18000-06B
 - Philips UCODE 1.19
- SAP Auto-ID Infrastructure support is also offered in our R170Xi, the industry's first 6-inch wide RFID printer/encoder.

How to Buy

Visit www.zebra.com and click the "How to Buy" icon or call toll-free (in U.S. and Canada) at +1 800 423 0442 or +1 847 793 2600. When calling, please indicate your interest in SAP printing solutions.

Only from Zebra—the expert in RFID and Bar Code Printing for SAP environments.

About SAP Auto-ID Infrastructure

SAP Auto-ID Infrastructure provides out-of-the-box functionality to fulfill requirements for RFID compliance in the logistics applications of the U.S. Department of Defense and large retailers with RFID mandates.
