

ZEBRA SOLUTIONS

Create Highly Secure ID Cards

SEE MORE. DO MORE.

WHEN SECURITY COUNTS, COUNT ON ZEBRA FOR HIGHLY SECURE CARD SOLUTIONS.

Security is a top priority today more than ever. Improve your organization's security with Zebra's advanced security ID card solutions.

Combat card counterfeiting and unauthorized alterations and duplications with levels of customizable security features offered through Zebra's pre-printed cards, True Secure™ laminates and Security class card printers.

Start with a high-quality Zebra plastic card containing your choice of pre-printed security features and built-in security materials. Using Zebra's Security class on-demand card printers, encode magnetic stripes, radio frequency identification tags for proximity cards, or smart chips for data security in smart cards, plus print variable text and vibrant ID photos. For higher card security and durability, add laminates embedded with additional overt, covert and forensic features.

Zebra card products provide businesses enhanced security, increased productivity, improved quality, lower costs and better customer service.

Choose from a broad range of full color or monochrome card printers. Options range from Ethernet connectivity, Gen 2 UHF RFID and magnetic stripe encoding, to lamination for higher security and card durability. There is a Zebra card printer to meet all your business needs.

Overt Visual Security Elements

Overt visual security elements, which are visible to the human eye, are easy to authenticate and very difficult to forge.

Covert Elements

Covert elements require a device to make them readable by the human eye.

Forensic Elements

Forensic elements are microscopic and the most difficult for a counterfeiter to detect and replicate.

CARD SECURITY FEATURES

For secure applications, Zebra offers Composite cards that provide a greater average lifespan than most cards available on the market. Order your customized, genuine Zebra™ cards with your choice of **overt**, **covert**, or **forensic** security features.

LAMINATION SECURITY FEATURES

Zebra True Secure advanced security laminates offer a multitude of secure features including unique holographic images, optical variable ink, morphing and more. Applied by Zebra Security class card printers, these protective materials provide increased durability and prolonged card life by preventing image fading and dye migration that can occur with normal card use.

PRINTERS AND SUPPLIES

SECURITY CARDS

Zebra Laminating Card Printers

For high-volume, high-security applications, choose a Zebra card printer with single- or dual-sided lamination. Depending on your application requirements, lamination is available on direct-to-card security printers or retransfer printers. They both provide the maximum amount of flexibility in protecting driver's licenses and other types of secure ID cards.

Ideal for:

- Driver's Licenses
- Government & Military ID Cards
- High Security Access Control ID Cards
- Law Enforcement and Correctional Facility ID Cards
- Airport Personnel ID Cards
- Applications requiring secure issuance of long-lasting, tamper-evident IDs

Extend Your Security Options with Long-Range RFID

With a Zebra card printer, you can extend the range of contactless ID cards to as much as 30 feet—thanks to secure, long-range RFID ultrahigh-frequency (UHF) technology. Efficiently control and monitor access to high-security organizations and areas, track people's locations, and relieve congestion by validating or counting people simultaneously, as well as track assets.

Optimize Your Printer Performance with Genuine Zebra™ Supplies

Print Ribbons

Zebra's True Colours® print ribbons deliver consistent, high-quality color reproduction for vibrant color photos, true-to-life flesh tones, and sharp monochrome resin bar codes and text. A patented overlay protects the card against dye-migration and abrasions.

Overlay & Laminate

Zebra's True Secure secure varnish overlays and laminates are designed to combat card counterfeiting, alteration and duplication. These protective materials prolong card life by preventing image fading and dye-migration, and create a more durable card. They can also deter card forgery with the use of the security-featured holograms. Zebra's patented linerless lamination dramatically reduces the cost of laminate material and is waste-free.

Plastic Cards

Zebra's premier plastic cards enhance the print quality and image sharpness needed for vivid colors and detailed, readable barcodes. For more secure applications, Zebra offers stock and custom security features.

Cleaning Supplies

Zebra offers a full line of cleaning supplies to properly maintain printer performance, extend card printer life, and yield better quality card images.
