Integration is easier with a variety of network connectivity options, while ZebraLink™ Solutions provide remote printer management capabilities.

Strong Return on Your Investment

Zebra’s Xi4 printers give you reliable performance over the long run to minimize maintenance needs and total cost of ownership. With one printer model and Zebra’s wide range of label materials and sizes, you can address a variety of printing applications, reducing the need to purchase different printers for every specific labeling application.

The wireless connectivity option frees you from paying for recabling with every physical reconfiguration of your operations.

Flexible for Specialty Labeling Applications

For small label applications—such as labeling small containers, electronics and jewelry—you need a printer that delivers extremely high resolution with crisp text, clear barcodes and precise registration, time after time.

Zebra’s 110Xi4 offers 600 dpi print resolution and consistent registration. With support for labels as small as 1/8” (3 mm), the RFID-ready 110Xi4 provides you with the flexibility, quality and precision you need to get the job done. The printer:

- Handles everything from paper to specialty label and tag stocks.
- Easily changes over from one label media to the next.
- Delivers consistently outstanding print quality on the widest range of media thicknesses.
- Offers optional UHF RFID encoding of the very smallest labels.
