

ZebraDesigner for mySAP Business Suite v2

“Plug and Print” Ease and Speed

With Zebra’s ZebraDesigner™ for mySAP™ Business Suite label design software for use with the SAP® Business Suite family of business applications, you can easily design and modify label formats within a user-friendly graphical interface — and print directly from SAP’s mySAP Business Suite environment. This easy-to-use label design software makes it possible to print to your Zebra® printers from SAP without the need for middleware or additional programming.

Once label designs are complete, they can be distributed to one or many printers — stored on your PC for later uploading to mySAP Business Suite. As new labeling needs emerge, it’s “click” simple to create or edit existing designs.

Enhanced with New, Versatile, Simple Tools

Easy-to-use label design tools and expanded RFID wizards make it simple to create complex labels — based on fixed or variable data. Controlling field content, overall label formatting and creating template files have all been enhanced.

The updated ZebraDesigner printer drivers place advanced printer diagnostic and configuration tools at your fingertips. Download fonts, graphics and firmware using an intuitive Windows® interface.

The new ZebraDesigner for mySAP Business Suite licensing system gives you control over product activation. Download a demo version to test drive the software — and then purchase an activation key from your Zebra reseller or at www.zebra.com/zdmy. Need to move a key from one PC to another? The License Manager guides you through the process.

Part of the ZebraLink Software / Tools Suite

FACT SHEET

ZEBRADESIGNER FOR MYSAP BUSINESS SUITE V2

Featuring an intuitive, Windows-based interface and a WYSIWYG label designer, ZebraDesigner for mySAP Business Suite makes creating complex bar code label designs and format changes “click” simple.

1. Design

With the help of the software’s new design and RFID wizards, it’s easy to create complex labels based on fixed or variable data.

ZebraDesigner for mySAP Business Suite supports the following user-interface languages:

- Croatian
- Czech
- Danish
- Dutch
- English
- Finnish
- French
- German
- Greek
- Hebrew
- Hungarian
- Italian
- Japanese
- Korean
- Lithuanian
- Norwegian
- Polish
- Portuguese
- Russian
- Simplified Chinese
- Slovak
- Slovenian
- Spanish
- Swedish
- Thai
- Traditional Chinese
- Turkish
- Ukrainian

2. Deploy

The design distribution wizard makes it easy to send label templates to one or many printers with a single click. Formats can also be stored on the PC for uploading to mySAP Business Suite.

3. Print

Once labels formats are in place, simply print directly from mySAP Business Suite. Variable fields are populated with data, and labels print!

Supported Operating Systems: Windows Vista, Windows 7, Windows 8, Windows 10, Windows Server 2008 R2, Windows Server 2012 R2.

Use ZebraNet™ Bridge Enterprise to enhance your printer management capabilities (free version included).

Specifications subject to change without notice.
