# DISMANTLING AND TREATMENT INFORMATION

## WhereTag STHO Product

Conforms to **Waste electrical and electronic equipment (WEEE)  
2002/96/EC**

Category 3 product according Annex IA

Date: 10 October 2011

Zebra Technologies  
2940 North 1<sup>st</sup> Street  
San Jose, CA 95134  
[www.zebra.com](http://www.zebra.com)

## Reuse and treatment information

Material	Weight [g]	Weight [%]	Important Information
<b>Waste Disposal (WD)</b>			
Ceramic	0	0

Subtotal	0	0	
<b>Total weight</b>	113 g	100%	

## Product identification and selective treatment information

105.1mm x 43.6mm x 19.3mm

### Product Description:

The WhereTag complies with the ANSI 371.1 RTLS standard and operates in the globally accepted 2.4GHz frequency band. There are several variations within the WhereTag product family, but the variations are almost exclusively in how the tags are housed, while the electronic components used are the same across all variations. All housing variations are plastic, ranging from permanently sealed (ultrasonically welded) to snap closure. WhereTag STHO's are powered by a 3.6V, Lithium SiO<sub>2</sub>, AA, axial lead battery.

# Dismantling Instructions

- A) Open case by removing six (6) screws.
- B) Remove printed circuit board from case.
- C) Remove battery by removing the cable and cutting around the RTV.

**Remove 6 Screws**

**Printed Circuit Board**

**Battery**
