

Rugged, the right features, the right price —  
**from a leader you can trust**

**TC15 Mobile Computer**

# Table of Contents

# Device Overview

## Meet the TC15 Mobile Computer

Introducing the TC15, the 5G rugged mobile computer designed for enterprise in the on-demand world. This right-priced device enables workers at every point in the supply chain to complete tasks faster, with flawless accuracy. It offers a rugged design, the power to seamlessly support many workflow applications, an extra-large 6.5 inch screen, consistently reliable integrated scanning, full shift battery power and unmatched ergonomics.

\* Scan engine configuration varies by country.

# Benefits

Make work easier for everyone with the **TC15** — from store associates and delivery drivers to field technicians

## **Exceptionally large and bright 6.5 in. display**

See more; do more; scroll less; bright colors and vivid graphics; easy to read indoors and in bright sunlight; touch screen works when wet and with gloves

## **The speed and power of 5G**

Close out work orders, load database applications and maps faster than ever with the latest cellular technologies; get crisp clear audio, even in loud work environments

## **Scanning performance you can count on**

Scan barcodes in virtually any condition with world-class integrated scanning; split-second effortless and omnidirectional scanning — unlike a cell phone camera, there's no need to stop and align the barcode in the viewfinder

## **Built to last with enterprise-grade rugged design**

Waterproof, dustproof and drop-proof — surviving drops to concrete; use it in the blazing heat or freezing cold, out in the rain or snow

## **Designed for unmatched comfort**

Sleek design with optimized weight distribution makes holding the TC15 virtually effortless; waved textured back helps reduce risk of slippage

## **Costs much less than a cell phone**

The average consumer cell phone will cost nearly 2.5x more in operating costs, 2.5x more in lost productivity and nearly 2x the IT support costs\*

## **The constant battery power you need**

High capacity removable battery provides more than enough power for a full shift

## **The power to seamlessly support many workflow applications**

Advanced Qualcomm octa-core 2.2 GHz processor; fast response times on all the apps workers need — from GPS to the most data-intensive applications

## **Instant familiarity of Android**

Virtually eliminates training time and adoption curves

# Top 5 Reasons

...to choose the **TC15** for your business

1

## **A new level of affordability for your supply chain**

The TC15 strikes the right balance of affordability, optimized rugged ergonomics and performance. As a result, you can afford to equip your workers with a rugged, enterprise-class mobile solution that provides the features required to complete tasks faster, with flawless accuracy — so you can meet the ever-increasing demands of today's on-demand world.

2

## **A superior experience for your workers**

Your workers depend on their mobile device every minute of every shift. And the TC15 gives them the best possible experience. An extra-large and bright 6.5 in. HD+ display that's easy to see — even in bright sunlight. Optimized ergonomics for extreme comfort. Blazing fast wireless connections, including 5G. The instant familiarity of Android. And much more.

3

## **World-class integrated scanning**

Your business relies on crucial data embedded in barcodes. With the TC15, you can count on Zebra's industry-leading scanning performance for split-second, effortless capture of virtually any barcode — including 1D, 2D and Digimarc. You can streamline and error-proof more workflows with the ability to capture: high resolution photos; NFC tags to verify identity; text information in serial numbers, labels and license plates; and UDI data on medical device packaging.

4

## **Costs much less to own than a cell phone\***

Consumer cell phones require more frequent maintenance and device replacements due to lack of durability. VDC Research found that the average consumer cell phone will cost nearly 2.5x more in operating costs, 2.5x more in lost productivity and nearly 2x the IT support costs.\*

5

## **Mobility DNA™ — your mobile computer's built-in advantage**

When you invest in a mobile device, you need more than just great hardware — you need great software. And Zebra Mobility DNA delivers. No-cost Mobility DNA Professional tools are available on the TC15, enabling easy device staging, better device management, easier app development, enhanced security and much more.

# Built for every point in the supply chain

With the TC15 in your supply chain, you can meet the demands of the on-demand economy — and deliver an ever-increasing volume of orders at ever-increasing speeds. This rugged device enables workers to complete tasks faster, with flawless accuracy — from manufacturing and warehousing to transportation and logistics to retail.

## Retail

**Deliver a superior shopping experience, whether your customers choose to shop in store, pick up curbside or ship to home:**

- Sleek and ergonomic design delivers consumer styling and worker comfort, all shift long
- World-class integrated scan engine ensures reliable and effortless scanning for inventory management, price checks, item lookup, order picking and more
- Supports back-to-back shifts with user removable battery
- Large display and Android provide an intuitive app experience that minimizes the need for user training

## Transportation and Logistics

**Empower drivers to make more stops per day and increase customer satisfaction without increasing staff:**

- 5G delivers super fast and reliable connections in the field
- Ready for any weather — read the display in bright sunlight, use the touch screen in the rain or while wearing gloves
- Capture all the data you need at the customer's doorstep: barcodes on labels, high resolution photos for proof of delivery and NFC data for package verification and identification
- User removable high capacity battery powers a full shift and more

## Manufacturing/Warehousing

**Increase throughput and accuracy in your warehouse operations:**

- World-class integrated scan engine ensures reliable and effortless scanning for picking, shipping and receiving
- Withstands 5 ft./1.5 m drops to concrete with the rugged boot — ideal for your warehouse floors and loading docks
- Large display and Android deliver an intuitive app experience that minimizes the need for user training

# Mobility DNA Professional

— your mobile computer's built-in advantage

## Professional no-cost ready-to-use toolkit — only from Zebra

Increase the productivity of your workforce and device value with no-cost Zebra Mobility DNA Professional tools. With this powerful set of complimentary products, it's easy to integrate devices into your business. Devices can be prepared for deployment in seconds — and it's easy to keep devices in the hands of your workers. You get true enterprise-class security on your devices. And more.

**Mobility Extensions (Mx)**  
Increase device and data security

**StageNow**  
Stage devices with your apps and settings in seconds

**DataWedge**  
Capture and send barcode data right to your apps, right out of the box

**Enterprise Home Screen**  
Choose the apps and features you want users to access

**GMS Restricted Mode**  
You decide which GMS apps and services to enable on your devices

**OEM Config**  
Enable your EMM to support even the newest features in your devices

**RxLogger**  
Collect targeted diagnostic data for easy troubleshooting

**Device Diagnostics**  
Determine if device issues can be fixed onsite with the press of a button

**Enterprise Mobility Development Toolkit**  
Easily create apps that use all the features in your devices

## Zebra OneCare™ SV

Keep your **TC15** up and running...  
and avoid unexpected repair costs

- Two years of protection against failure
- Coverage for normal wear and tear
- Five-day depot priority repair turnaround time
- Free return ground shipping from the Repair Center
- Priority access 8x5 local time live-agent technical support and 24x7 access to self-service tools
- Access to software updates and LifeGuard™ for Android™ security updates
- Automatic application of engineering changes during depot repair
- Access to VisibilityIQ™ OneCare™ — cloud-based visibility into your contracts, repair data, tech support cases and more
- Value-add SV service options, include: VisibilityIQ Foresight, Preferred Flat Rate Repair (FRR) covering damage, Battery Maintenance or Battery Refresh, and Expedited Logistics

# Business-class accessories for easier device management...

## Charging cradle

Charge the TC15 and a spare battery at the same time — makes it easy to keep a fully charged spare battery on hand for multiple shifts and on-the-road employees; cradle is compatible with or without the rugged boot

## Rugged boot

For more demanding environments, a rugged boot increases the drop specification, allowing devices to operate reliably after a 5 ft./1.5 m drop

## Connecting plate for cradles

Connect cradles to simplify the backroom — charging cradles can be joined together on the bottom side of the cradle using the included snap-on connector

## USB charging

Easy charging anywhere — plug in any standard outlet to charge with USB-C power supply and USB-C power cable — or charge in any vehicle with the USB-C cable

## Hand strap

The quick-release hand strap provides a safe and secure grip

With integrated NFC, you can just tap to pair with any NFC-enabled Zebra mobile printer and wearable scanner to create a complete mobile solution in seconds
