

ZEBRA Workcloud

Inventory Visibility

Take charge of your inventory and increase your profitability by using Workcloud Inventory Visibility™ to perform your own physical inventory counts.

Simple, out-of-the-box deployment and turnkey installation means you can get started right away—performing counts that are easier to plan for and much more accurate.

Put inventory back into your hands

Today's retailers are juggling a greater need for inventory visibility while navigating rising costs, unreliable third-party vendors, supply chain instability, and more. Take back control of your inventory with a self-scan inventory solution that increases visibility and accuracy across your stores.

Workcloud Inventory Visibility does more than help you manage inventory—it unlocks new levels of insight and visibility.

- **Utilize** your own teams to perform inventory counts
- **Perform** counts when and how you need them
- **Know** you can count on Zebra for white-glove service and support at every step

Save up to 50% on your inventory events with measurable improvements across your store, including:

- Higher inventory accuracy
- Simplified planning
- Improved margins
- Easier implementation
- Real-time visibility

Benefits for every member of the team

Workcloud Inventory Visibility helps make work easier for your inventory management, store operations, and loss prevention teams—providing tangible benefits to associates, customers, and the bottom line.

Gain control of inventory

Improve inventory accuracy

Automate data capture for greater precision in counts, higher in-stock ratios, and quicker fulfillment rates.

Gain schedule control and flexibility

Get full control of your inventory events by scheduling them on your terms and timelines with your own associates.

Reduce costs

Eliminate third-party fees and the need for redundant checks on third-party work.

Streamline operations

Take charge

Eliminate the frustration of dealing with unreliable third-party vendors, and ensure greater accuracy and reliability to make informed decisions.

Return to normal business, faster

Eliminate the need for set up and clean up, so your employees can focus on providing exceptional customer service and reopening your stores quickly.

Enhance safety and security

Make sure your staff is safe by limiting outside labor and relying on your own teams.

Mitigate retail loss

Minimize shrink and loss

Zero in on where theft happens by store and location with real-time visibility of inventory counts per SKU.

Stay alert to leaks from all sources

Make sure you always know what's in stock to prevent losing money from missing, broken, or stolen items.

Keep the store secure

Minimize security risks by trusting your own reliable teams instead of unverified, third-party temporary staff.

Simplify inventory counts with Workcloud Inventory Visibility

Drive accuracy across your store for every inventory event. With a self-scan model, you can tackle inventory with greater accuracy—from physical inventory and cycle counting, to streamlined returns management.

Physical, wall-to-wall inventory

Save money and hassle

With our ready-to-use turnkey solution, you can use your own staff to save 50% on counting costs and avoid the headaches of external service providers.

Ready to use

With Workcloud Inventory Visibility, you get a turnkey solution that is easy to implement so you can start counting right away.

White-glove support

Benefit from our 60 years of experience and a dedicated support team. We provide comprehensive training, 24/7 help desk assistance, and personalized guidance.

Stay informed in real time

Get real-time visibility into your inventory as counts happen so you can make informed decisions and take action immediately.

Targeted cycle counts

Perform inventory counts with ease

Maintain inventory accuracy by conducting frequent cycle counts that can be tailored to your store's specific needs. Monitor high-margin, high-volume, and high-theft items for discrepancies in inventory data.

Get quick, accurate results

Quickly access the information you need using our integrated analytics dashboard with filters.

Tailor counts to your store

Target particular areas of your store and adjust counts as needed based on inventory type, turnover rates, shrink rates, seasonal changes, and more.

Simplify your inventory process

Reduce additional training by using the same solution for all your inventory events.

Retail returns management

Make returns simple

Easily manage returns with a purpose-built solution designed for the buy, try, and return era.

Accurately capture data

Scan multiple barcodes simultaneously with speed and precision.

Leverage analytics

Get instant return statuses and identify shrink with actionable data to improve operations.
