

Simple Setup Experience

Go from unboxing to scanning in five minutes or less

Setup designed for everyone

Getting new scanners up and running shouldn't require technical expertise or IT support. Zebra's Simple Setup Experience transforms scanner configuration from a technical task into a guided, user-friendly workflow—enabling anyone to set up a Zebra scanner quickly and confidently using just a mobile phone.

In five minutes or less, users move from unboxing to fully operational through a guided, visual experience powered by simple prompts and easy yes/no questions. The tool recommends the right configuration based on user selections, eliminating guesswork and helping minimize setup errors.

Just scan the QR code on the scanner's packaging to begin. Setup becomes effortless, consistent, and remarkably fast.

The Benefits of Simple Setup

Deploy devices faster

- Reduce setup time from lengthy configuration processes to minutes.

No technical expertise required

- Designed specifically for non-technical users—no manuals, no training.

Minimize setup errors

- Guided workflows help ensure the correct settings are selected from the start.

Help is always within reach

- In the unlikely event additional assistance is needed, support resources are easy to access.

Advanced control when needed

- For more advanced configurations, power users can utilize our existing suite of software tools and APIs.

Up and running faster than ever

Scan a QR code. Follow the prompts. You're ready to go.

Step 1

Scan to Begin

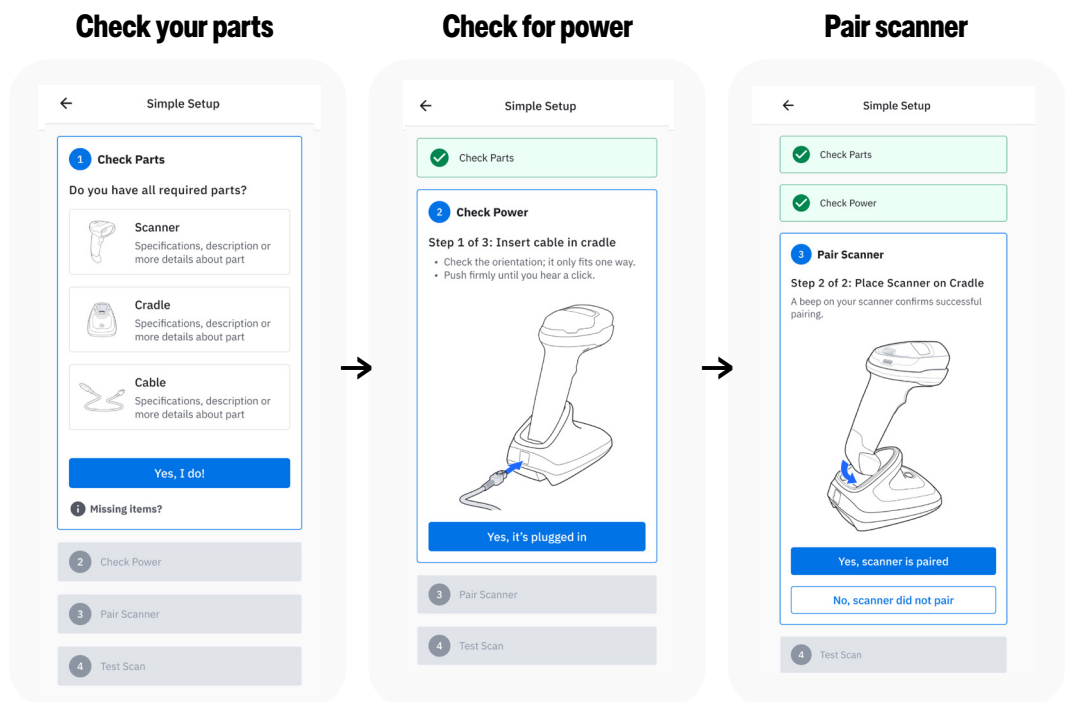

Just unbox the scanner, locate the Simple Setup QR code, and scan it with your mobile phone to start setup instantly—no app or download required.

Step 2

Guided Configuration

Follow a simple, visual setup flow with clear prompts and intuitive yes/no questions. The experience adapts to your selections.

 In less than 5 minutes, you're ready to start scanning

Step 3

Setup Complete!

Simple Setup creates a programming barcode. Scan it with the scanner and the correct settings are applied automatically. If you need more help, built-in support is always available.
