

Empower Data-Driven Decisions

With predictive and actionable analytics

Zebra VisibilityIQ™ Foresight

Powered by Zebra Savanna™

There's thousands of devices you need to manage, and if they're not operating at their best, they can disrupt your operations and slow down productivity.

But a simple MDM won't cut it—you need more.
More actionable insights to go above and beyond to prevent downtime and unexpected repair costs.

What if there was a single solution to give you device health and utilization data for your entire fleet—from mobile computers to printers and batteries—to keep operations running at its peak? A way workers could stay connected throughout an entire shift? A way to enable data-driven decisions for your business?

Empower teams with tools and insights to improve device uptime and workflows. All from one trusted partner and dashboard—Zebra VisibilityIQ™ Foresight.

One Dashboard. One View. One Solution.

Get all your device insights with Zebra VisibilityIQ™ Foresight

Ensure your mobile computers, batteries, and remote and stationary printers operate smoothly with a single, comprehensive view of your device health and utilization—no matter where they're located across your operations.

-  Get a customizable view of the operational reports you need
-  View device inventory, utilization, location and performance
-  Access critical data on battery statistics and levels to prevent downtime

-  Keep teams connected with threshold notifications
-  Track device repair cases and status
-  Monitor mobile computers, stationary and remote printer health

Expand the Impact of Your MDM with Insights

It's More than an MDM

Zebra VisibilityIQ Foresight goes beyond simple device management. It provides operational insights on historical data trending, current state health and actionable, predictive intelligence to prevent issues and empower informed decisions.

What if I have an MDM or in-house system already?

Zebra VisibilityIQ Foresight complements your system by integrating with your MDM to extract your data and combine ours to provide the actionable insights your current system can't provide on its own.

And if you don't have an MDM, Zebra VisibilityIQ Foresight can share device insights alone.

Platform Options

Zebra VisibilityIQ™ Foresight IoT

Zebra VisibilityIQ™ Foresight Connect

Zebra VisibilityIQ™ Foresight with Embedded MDM

5 Ways to Benefit from Zebra's APIs

1. Eliminate multiple data sources and interfaces
2. Create customized views
3. Integrate data into existing systems
4. Automate actions based on targeted insights
5. Get detailed support and repair statuses on your devices

Zebra VisibilityIQ™ Foresight provides value to your operations tailored to your business.
