

Zebra ZXP Series 7 QuikCard Enterprise ID Solution

FREQUENTLY ASKED QUESTIONS

Q: What is the Zebra QuikCard Enterprise ID Solution?

A: The Zebra QuikCard Enterprise ID solution is a complete bundled package with everything an end-user needs to create and print higher end 'enterprise cards across a variety of applications. Bundled into a single box, the solution contains a Zebra ZXP Series 7 Premium class card printer – single and dual side, with or without magnetic encoding, CardStudio 'Enterprise' edition (CD and License Key), Logitech Web Cam for taking photos to be used in ID cards, a YMCKO/ YMCKOK (250 image) ribbon; and 200 PVC cards.

Q: How is the Enterprise ID Solution different than the Standard ID Solution?

A: The main difference between the two different solutions is the card printer that is included. The 'enterprise' edition includes a ZXP Series 7 for larger volume and better quality cards, while the 'standard' solution includes a ZXP Series 1 for smaller volume jobs.

Q: What applications would a ZXP Series 7 QuikCard Enterprise ID Solution be used?

A: The QuikCard Enterprise ID Solution is ideal for cards at mid to large enterprises, hospitality and education. Specific applications include:

- Enterprise level Corporate ID and security badging applications
- Loyalty, membership, and Access Control card applications
- K12 Student ID, school, library cards

Q: What are the major features and benefits of the Zebra QuikCard ID Solution?

A: An easy and complete end-to-end solution for mid-large size organizations to quickly produce photo ID cards with professional quality and appearance.

Reasonably Priced

- Low initial investment
- Intuitive software template designs reduces training costs

Versatile

- Single- or dual-sided printing
- Full-color printing
- Optional magnetic encoding capability

Easy-to-use

- Easy loading of ribbons with the ZXP Series 7 ribbon drawer.
- Exclusive QuikCard ID Solution design software with templates for exceptionally easy and fast custom creation of various types of cards

Performance

- Using the latest in Zebra card-printing technology, the ZXP Series 7 provides high-quality card printing. The ZXP Series 7 printer has an innovative design. It automatically adjusts to the thickness of the card, and ribbon loading is easy. With color coded guides and a clear LCD control panel, it's simple for anyone to use.

Q: What is the warranty for the Enterprise ID Solution?

A: Two years on all solution components and unlimited printhead passes.

Q: Can I order any of the components of the QuikCard Enterprise ID Solution separately?

Zebra ZXP Series 7 QuikCard Enterprise ID Solution

FREQUENTLY ASKED QUESTIONS

A: The ZXP Series 7 printer and any of the standard ZXP Series 7 media and supplies can be ordered via normal Zebra channels (ribbons and cards). However, the bundled QuikCard Enterprise ID Solution Software, webcam are sold as part of the complete QuikCard ID Solution only, and cannot be ordered separately or individually. Please contact Zebra technical support if any of these components need to be repaired or replaced while under warranty.

Q: What regions will the ZXP Series 7 QuikCard Enterprise ID Solution be available in?

A: The ZXP Series 7 QuikCard Enterprise ID Solution will be available in North America, Latin America (excluding Brazil) and EMEA.

Q: What is the list price for the ZXP Series 7 QuikCard Enterprise ID Solution?

A: The list prices and part numbers are shown below by region.
