

Putting sustainability at the heart of our products

When it comes to creating sustainable products, Zebra is committed. From company-wide global initiatives to the end-to-end product life cycle from manufacturing to retirement, our green initiatives protect the planet—and the people who make and use our products.

DS82-HC SERIES

ECO-FRIENDLY ATTRIBUTES

SUSTAINABLE PACKAGING

GREEN BATTERY TECHNOLOGY

Product sustainability attributes

Eco-friendly attributes⁵

No Halogens, no Mercury, no PFO/PFOAs, no latex.
Global Requirement with Global ROHS requirements.

Sustainable packaging

Our corrugated packaging is 100% curbside recyclable:
• 100% biodegradable packaging by weight
• The cardboard box contains a minimum of 65% recycled content
• All paper inserts are made with FSC Mix certified paper

Power consumption

• 29% more power efficient than its predecessor¹
• Fast Charging in just 3 hours 30 minutes⁴
• Operates from 5V USB, eliminating the need for an external power supply⁷
• Zebra Technologies external power supplies meet US Department of Energy (DoE) Level VI and all international efficiency requirements

Lower consumption of devices, accessories and batteries through maximized life cycles

Most carbon emissions occur in the raw material and manufacturing stages—the fewer devices you use, the more you reduce greenhouse gases

- **Maximized lifecycle** with Zebra's rugged design
- **5 years of repair and technical support:** no need to retire working devices due to lack of available support³
- **Universal cables and power supplies** are compatible with past and future device generation
- **No lost devices to replace:** Virtual Tether locates devices when lost or misplaced
- **Reduced spare pool:** no-cost Zebra DNA™ troubleshooting tools keep devices on-site and in the hands of your workers—instead of the service center
- **Keep your devices current** and seamlessly scale with ongoing enhancements delivered quarterly via the Zebra Evolution Update (quarterly newsletter that details maintenance and firmware releases for the quarter)

Green battery technology

- Removable, easy to recycle battery
- Reduced spare battery pool: 108-hour battery run time², plus visibility into battery health to ensure that all batteries can hold a full charge

This scanner contains **33%** less gold than its predecessor⁶

Zebra's Circular economy provides Life-cycle management of E-Waste to reduce your overall environmental impact

Battery recycling services

We offer a variety of options, depending on location, from convenient drop-off locations to complete a-to-z battery management, where Zebra handles it all for you. Conditions apply.
