Putting sustainability at the heart of our products

ECO-FRIENDLY ATTRIBUTES

SUSTAINABLE PACKAGING

GREEN BATTERY TECHNOLOGY

When it comes to creating sustainable products, Zebra is committed. From company-wide global initiatives to the end-to-end product life cycle from manufacturing to retirement, our green initiatives protect the planet—and the people who make and use our products.

DS82 SERIES

Product sustainability attributes

Eco-friendly attributes[5]	No Halogens, no Mercury, no PFO/PFOAs, no latex. Global Requirement with Global ROHS requirements.
Sustainable packaging	Our corrugated packaging is 100% curbside recyclable: · 94% biodegradable packaging by weight · The cardboard box contains a minimum of 65% recycled content · All paper inserts are made with FSC Mix certified paper
Power consumption	· 15% more power efficient than its predecessor[1] · Fast Charging in just 3 hours 25 minutes[4] · Operates from 5V USB, eliminating the need for an external power supply[7] · Zebra Technologies external power supplies meet US Department of Energy (DoE) Level VI and all international efficiency requirements
Lower consumption of devices, accessories and batteries through maximized life cycles	Most carbon emissions occur in the raw material and manufacturing stages—the fewer devices you use, the more you reduce greenhouse gases · **Maximized lifecycle** with Zebra's rugged design · **5 years of repair and technical support:** no need to retire working devices due to lack of available support[3] · **Universal cables and power supplies** are compatible with past and future device generation · **No lost devices to replace:** Virtual Tether locates devices when lost or misplaced · **Reduced spare pool:** no-cost Zebra DNA™ troubleshooting tools keep devices on-site and in the hands of your workers—instead of the service center · **Keep your devices current** and seamlessly scale with ongoing enhancements delivered quarterly via the Zebra Evolution Update (quarterly newsletter that details maintenance and firmware releases for the quarter)
Green battery technology	· Removable, easy to recycle battery · Reduced spare battery pool: 108-hour battery run time[2], plus visibility into battery health to ensure that all batteries can hold a full charge

This device contains 33% less gold than its predecessor[6]

HALOGEN FREE · mercury-free · latex free · RoHS COMPLIANT · PFOA FREE

Zebra's circular economy provides life-cycle management of products that reduce your overall carbon impact

Takeback recycling program
Zebra offers free recycling for selected end of life devices and will provide a certificate of destruction upon request. Conditions apply.

Device buy-back program
Your end of life devices may be eligible for a device buy-back, enabling a "green" upgrade to the next generation device.

Battery recycling services
We offer a variety of options, depending on location, from convenient drop-off locations to complete a-to-z battery management, where Zebra handles it all for you. Conditions apply.
