

Putting sustainability at the heart of our products

When it comes to creating sustainable products, Zebra is committed. From company-wide global initiatives to the end-to-end product life cycle from manufacturing to retirement, our green initiatives protect the planet—and the people who make and use our products.

ECO-FRIENDLY ATTRIBUTES

SUSTAINABLE PACKAGING

Product sustainability attributes

Eco-friendly attributes⁴	No mercury, no PFO/PFOAs, no latex, compliant with global ROHS requirements. EPEAT certification in process.
Sustainable packaging	Our corrugated packaging is 100% curbside recyclable: • 99% biodegradable packaging by weight • All cardboard and paper inserts are made with FSC Mix certified paper • The cardboard box contains a minimum of 50% recycled content
Power consumption	• 43% below allowable Energy Star consumption level¹ • Green Mode settings and Dynamic Power Optimization allow for intelligent limiting of power consumption across a fleet of devices • Zebra Technologies external power supplies meet DOE Level VI and all international efficiency requirements
Fewer device types	Device can be fixed to a wall with VESA mount and operate in battery-less mode as a kiosk. It can work in a Presentation Stand with/without a battery for POS-checkout modes or in a Workstation Connect Cradle offering a lower cost vs larger PC/monitor configuration reducing waste.
Advanced NFC reading	• Avoid the spread of germs: the most complete Android™ NFC reading enables NFC contactless transactions like ticketing and payment • Reduced waste from eliminating physical tickets
Lower consumption of devices, accessories and batteries through maximized life cycles	Most carbon emissions occur in the raw material and manufacturing stages—the fewer devices you use, the more you reduce greenhouse gases • Maximized lifecycle with Zebra's rugged design • 8 years of security: keep your devices secure every day of their long lifecycle with LifeGuard™ for Android³ • 8 years of repair and technical support: no need to retire working devices due to lack of available support³ • Device is compatible with legacy ET40/ET45 charging accessories • No adapter cup required for using 1D or ShareCradle accessories from ET40/ET45 • Re-uses existing accessories like Presentation Stand and Workstation Cradle • No lost devices to replace: Device Guardian locates devices when lost or misplaced even when the battery is depleted • Reduced spare pool: no-cost Zebra DNA™ for Mobile Computers troubleshooting tools keep devices on-site and in the hands of your workers—instead of the service center • Supports Identity Guardian to improve productivity and efficiency in the workflow
Green battery technology	• Removable, easy to recycle battery • Reduce spare battery pool: 10-hour battery run time², plus visibility into battery health to ensure that all batteries can hold a full charge • Zebra Charge Manager allows more efficient charging and longer battery lifetime

This device contains 32% post-consumer recycled plastic⁵

Zebra's Circular economy provides life-cycle management of products that reduce your overall carbon impact

Takeback recycling program

Zebra offers free recycling for selected end of life devices and will provide a certificate of destruction upon request. Conditions apply.

Device buy-back program

Your end of life devices may be eligible for a device buy-back, enabling a "green" upgrade to the next generation device.

Certified refurbished device program

Purchase or rent certified refurbished devices, which perform like new and may include end of life products to meet season surges and bridge gaps to a tech refresh.

Battery recycling services

We offer a variety of options, depending on location, from convenient drop-off locations to complete a-to-z battery management, where Zebra handles it all for you. Conditions apply.
