Putting Sustainability at the Heart of Our Products

When it comes to creating sustainable products, Zebra is committed. From company-wide global initiatives to the end-to-end product life cycle from manufacturing to retirement, our green initiatives protect the planet—and the people who make and use our products.

A-to-Z sustainable packaging
Our corrugated packaging is 100% curbside recyclable:
• 95% biodegradable packaging by weight
• The cardboard box contains a minimum of 90% recycled content
• All paper is non-bleached and contains a minimum of 90% recycled content

Eco-friendly attributes5
• No halogens
• No mercury
• No PFO/PFOAs
• No Latex
• Global requirements with Global ROHS requirements

Power consumption
• 73% below allowable Energy Star consumption levels¹.
• Fast charging in just 2 hours, 30 minutes⁴
• Green Mode settings allow for intelligent limiting of power consumption across a fleet of devices
• Zebra Technologies external power supplies meet US Department of Energy (DoE) Level VI and all international efficiency requirements

Advanced NFC reading
• Avoid the spread of germs: the most complete Android™ NFC reading enables NFC contactless transactions like ticketing and payment
• Reduced waste from eliminating physical tickets

Green battery technology
• Removable, easy to recycle battery
• Reduce spare battery pool: 12 hours battery run time², plus visibility into battery health to ensure that all batteries can hold a full charge
• Zebra Charge Manager allows more efficient charging and longer battery lifetime
• Battery-free option for always-powered applications eliminates environmental impacts from the battery⁶

Use fewer device types
The ET6x tablets provide true device convergence—with multiple modalities and expansion options including docks, keyboards, scanner, etc., making it suitable for many applications and use cases, substantially reducing plastics and electronics volume, as well as cost and device maintenance.

Zebra’s Circular Economy provides life-cycle management of products that reduce your overall carbon impact

Takeback Recycling Program
Zebra offers free recycling for selected end of life devices and will provide a certificate of destruction upon request. Conditions apply

Device Buy-Back Program
Your end of life devices may be eligible for a device buy-back, enabling a “green” upgrade to the next generation device

Certified Refurbished Device Program
Purchase or rent Certified Refurbished devices, which perform like new and may include End of Life products to meet season surges and bridge gaps to a tech refresh

Battery Recycling Services
We offer a variety of options, depending on location, from convenient drop-off locations to complete a-to-z battery management, where Zebra handles it all for you
