Putting Sustainability at the Heart of Our Products

When it comes to creating sustainable products, Zebra is committed. From company-wide global initiatives to the end-to-end product life cycle from manufacturing to retirement, our green initiatives protect the planet—and the people who make and use our products.

Sustainable Materials

The KC50 contains 3.7% **post-consumer recycled plastic**⁴

A-to-Z sustainable packaging

Our corrugated packaging is 100% curbside recyclable⁵

- 85% by weight biodegradable packaging
- All paper inserts are made with FSC Mix certified paper
- The cardboard box for 15-inch and 22-inch models contains a minimum of 70% recycled content

Eco-friendly attributes

- No halogens
- No mercury
- No PFO/PFOAs
- No latex
- Compliant with global RoHS requirements

Power consumption

- 56% below allowable Energy Star consumption level¹
- Green Mode settings and Dynamic Power Optimization allow for intelligent limiting of power consumption across a fleet of devices
- Zebra Technologies external power supplies meet US DOE Level VI and all international efficiency requirements

Enabling Accessibility

Zebra solutions provide true device convergence—The KC50 Kiosk enables the creation of accessible solutions to bring the convenience of self-service to those with disabilities

EPEAT certification for proven sustainability

EPEAT Silver Registered⁶

Advanced NFC Reading

- Reduced Waste from eliminating physical tickets

Lower consumption of devices, accessories and batteries through maximized life cycles

Most carbon emissions occur in the raw material and manufacturing stages—the fewer devices you use, the more you reduce greenhouse gases

- Maximized Lifecycle with Zebra's Rugged design
- 8 years of security: keep your devices secure every day of their long life cycle with LifeGuard™ for Android™³
- 8 years of repair and technical support: no need to retire working devices due to lack of available support²
- No lost devices to replace: Device Guardian locates devices when lost or misplaced even when the battery is depleted
- Reduced spare device pool: no-cost Mobility DNA™ troubleshooting tools keep devices on-site—instead of the service center

Zebra's Circular Economy provides life-cycle management of products that reduce your overall carbon impact

Takeback Recycling Program

Zebra offers free recycling for selected end of life devices and will provide a certificate of destruction upon request. Conditions apply.

Device Buy-Back Program

Your end of life devices may be eligible for a device buy-back, enabling a 'green' upgrade to the next generation device

Certified Refurbished Device Program

Purchase or rent Certified Refurbished devices, which perform like new and may include end of life products, to meet season surges and bridge gaps to a tech refresh
