

Zebra Nucleus Connector

Mobile App

The simplest way to set up your printer

Zebra Nucleus Connector (formerly Zebra Printer Setup Utility) is a free mobile app for Android and iOS that makes the process of setting up and configuring your Zebra thermal printer easier and faster than it's ever been before.

Users of any technical skill level can now configure their printers with a simple, modern interface and intuitive guidance.

Nucleus Connector delivers a remarkably simple and seamless setup process. Designed to be intuitive and efficient, the app guides you through a few essential steps to get you set up and running in minutes.

Key features

Consolidated process

All printer setup, connectivity, configuration, and update steps are combined into one easy-to-use app.

Consumer-friendly interface

Modern and recognizable interface, comfortable for app users of any technical aptitude.

Universal accessibility

Available for Android and iOS as a mobile app with consistent design and interface for all users.

Intuitive user experience

No specialized knowledge required; the app guides you through configuring your Zebra printers so they're connected and optimized for performance.

Fast, easy setup

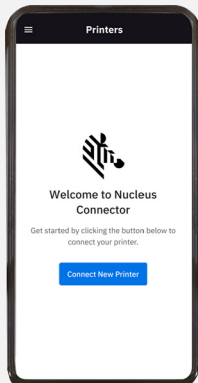

Zebra Nucleus Connector replaces the Zebra Printer Setup Utility.

Step 1

Get the app

Download the Nucleus Connector printer setup app to your Android or iOS mobile device and open it.

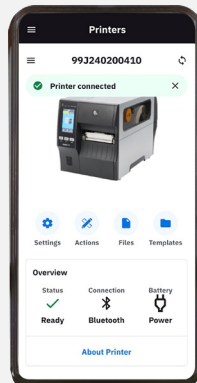

Step 2

Find the printer

After you've unboxed and connected your new Zebra printer, use the guided configuration feature in Nucleus Connector to find it on your network.

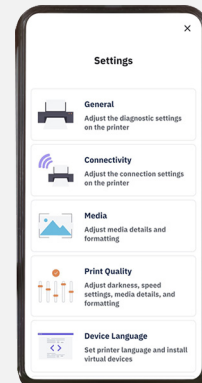

Step 3

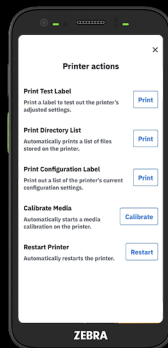

Choose the settings

Adjust the appropriate configuration settings—such as connectivity, media, print quality, and language—or simply choose a preconfigured Printer Setting Profile.

Setup complete!

From unboxing to operational in minutes with **Zebra Nucleus Connector**.

Nucleus enrollment

Zebra Nucleus Connector serves as the printer enrollment utility for the Zebra Nucleus endpoint management platform, which lets you manage your entire fleet of Zebra printers, scanners, and mobile computers within a single ecosystem. If Nucleus is part of your device management system, you can enroll your Zebra printer with Nucleus Connector.
