

Zebra Nucleus Connector

Simple Supplies Setup

Configure printer supplies instantly by entering your Zebra ZipShip part number

Getting printer media settings dialed in just right can be time-consuming and error-prone. But with the **Simple Supplies Setup** feature in Zebra Nucleus Connector, configuring your Zebra printer and supplies couldn't be easier.

All you need to do is enter the Zebra ZipShip part number. The application automatically applies optimized settings for the selected media, helping users complete printer setup faster and with fewer mistakes.

Whether you're a small or midsize business customer, an operations manager, or an IT professional who doesn't specialize in thermal printing, Simple Supplies Setup helps you with media configuration so you can start printing immediately.

Key benefits

Instant setup

Reduce printer setup time by eliminating manual media configuration and trial-and-error adjustments.

Perfect first prints

Apply settings that have been optimized for genuine Zebra supplies, ensuring reliable performance and print quality.

Reliable operation

Provide users with an intuitive workflow that minimizes confusion and configuration mistakes.

Consistent user experience

Available through Zebra Nucleus Connector on both Windows and mobile platforms.

Easy as 1-2-3

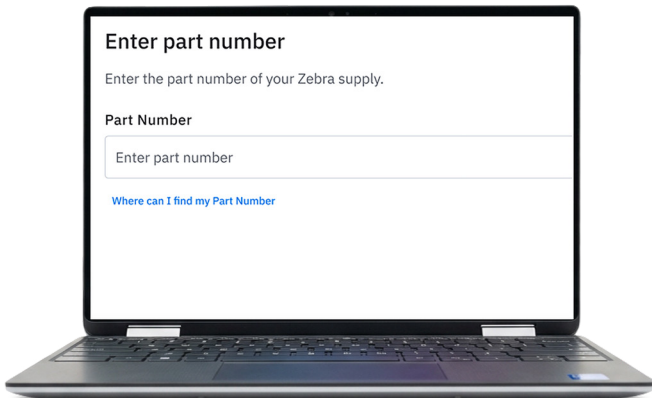

Zebra Nucleus Connector Simple Supplies Setup

Step 1

Enter Zebra ZipShip part number

The application automatically applies the known best settings and configurations to the printer.

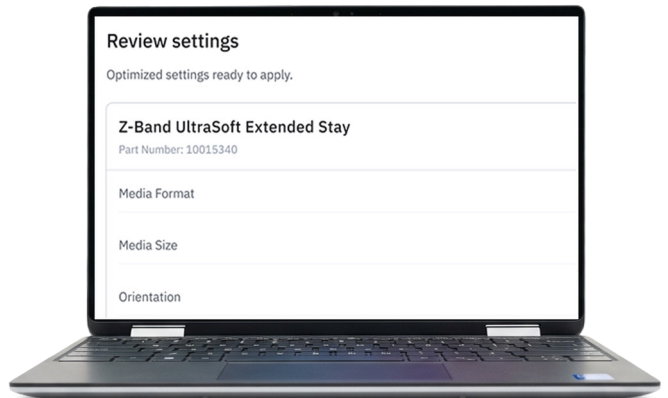

Step 2

Review settings

Optimal supply settings are displayed for your confirmation. A one-click test print is available.

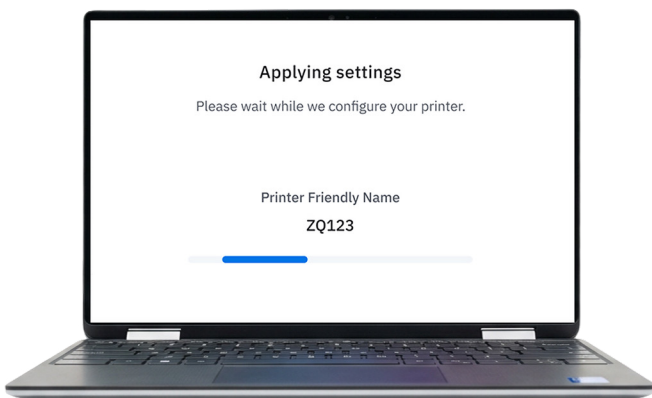

Step 3

Apply settings

Confirm the recommended settings or adjust them to fit your specific requirements.

Zebra Nucleus Connector helps configure your Zebra printers and supplies quickly and easily. Learn more at zebra.com/nucleus-connector

For wristband printers like the Zebra ZD510-HC and HC100, media settings are read-only and cannot be adjusted.
