

Upgrade Your Checkout Experience with Zebra

Bring speed and safety to your C-Store with purpose-built scanners

Moving shoppers through checkout quickly and safely is critical. Whether customers checkout through your POS or opt for self-checkout, both require effective scanning. Getting customers in and out of your store quickly while providing a superior customer experience is crucial to your bottom line.

Avoid delays with scanners that capture — the first time, every time — everywhere in your store.

Traditional Point of Sale

Superior swipe performance and throughput for fast, frictionless scanning

Quickly decode loyalty app barcodes

Parse drivers licenses to ensure safe and legal purchases

Offer contactless mobile loyalty and payment processing with customer-facing scanner

Bioptic Self-Checkout

Provide customers with a contactless option

Intuitive and easy to operate

Scan mobile loyalty apps

Reduce shrinkage with scanner intelligence

Prevent barcode switching

Explore Zebra's Unique DataCapture DNA features:

123Scan makes scanning configuration and deployment easy for everyone

Remote Management reduces the time and cost of managing scanners remotely

ScanSpeed Analytics identifies and phases out poor performing barcodes to speed up checkout

PRZM Intelligent Imaging ensures instantaneous capture of the most problematic barcodes
