

Putting sustainability at the heart of our products

When it comes to creating sustainable products, Zebra is committed. From company-wide global initiatives to the end-to-end product life cycle from manufacturing to retirement, our green initiatives protect the planet—and the people who make and use our products.

Product sustainability attributes

EPEAT	Certification in process.
Eco-friendly attributes ⁵	No halogens, no mercury, no PFO/PFOAs, no latex, compliant with global ROHS requirements.
A-to-Z sustainable packaging	Our corrugated packaging is 100% curbside recyclable: • 97% biodegradable packaging, by weight • All cardboard and paper inserts are made with FSC Mix certified paper
Power consumption	• Consumes 43% less energy than the US Department of Energy (DOE) required threshold ¹ • Green Mode settings allow for intelligent limiting of power consumption across a fleet of devices
Using fewer device types	Zebra solutions provide true device convergence—the device also has an integrated scanner, push-to-talk capability, NFC payments, and can replace a workstation, substantially reducing plastics and electronics volumes, as well as cost.
Lower consumption of devices, accessories and batteries through maximized life cycles	Most carbon emissions occur in the raw material and manufacturing stages—the fewer devices you use, the more you reduce greenhouse gases: • 8 years of security: keep your devices secure every day of their long lifecycle with LifeGuard™ for Android™ ² • 8 years of repair and technical support: no need to retire working devices due to lack of available support ³ • TC201 is compatible with the new modular designed cradle which includes tool-less swap out of cups and allows 2x more devices maximizing your space efficiency • Device Guardian locates devices when lost or misplaced even when the battery is depleted • No-cost Zebra DNA™ troubleshooting tools keep devices on-site and in the hands of your workers—instead of the service center
Green battery technology	• Removable, easy to recycle battery • Reduced spare battery pool: Over 19.45-hour battery run time ² , plus visibility into battery health to ensure that all batteries can hold a full charge • Zebra Charge Manager allows more efficient charging and longer battery lifetime

The device contains
41.7% total sustainable plastics by mass, **17.4%** PCR plastics by mass, **24.2%** bio-based plastic by mass⁵, **83.5%** total recycled metals by mass⁷, **6.2%** PCR steel alloy by mass, **77.2%** PCR magnesium by mass

Zebra's circular economy provides life-cycle management of products that reduce your overall carbon impact

Takeback recycling program

Zebra offers free recycling for selected end of life devices and will provide a certificate of destruction upon request. Conditions apply.

Device buy-back program

Your end of life devices may be eligible for a device buy-back, enabling a "green" upgrade to the next generation device.

Certified refurbished device program

Purchase or rent Certified Refurbished devices, which perform like new and may include End of Life products to meet season surges and bridge gaps to a tech refresh.

Battery recycling

We offer a variety of options, depending on location, from convenient drop-off locations to complete a-to-z battery management, where Zebra handles it all for you. Conditions apply.
