

Workcloud Shift™

Transform retail operations for the frontline

Take control of your work-life balance with Workcloud Shift, the new and improved employee app designed for retail frontline associates.

With access to schedules and availability via an Android or iOS native application, associates can manage time off requests, shift swaps, and more. Managers and associates can work together to create schedules that meet both business and individual needs, improving employee engagement and retention.

Simplify your workday, reduce scheduling conflicts, and stay better connected

Give employees the ability to manage their own schedules

View Your Schedule: Access detailed shift information, including start/end times and hours, all in one place

Shift Swapping: Easily trade shifts with coworkers for greater flexibility without requiring managerial approval

Shift Bidding: Bid on open shifts to pick up extra work based on your availability

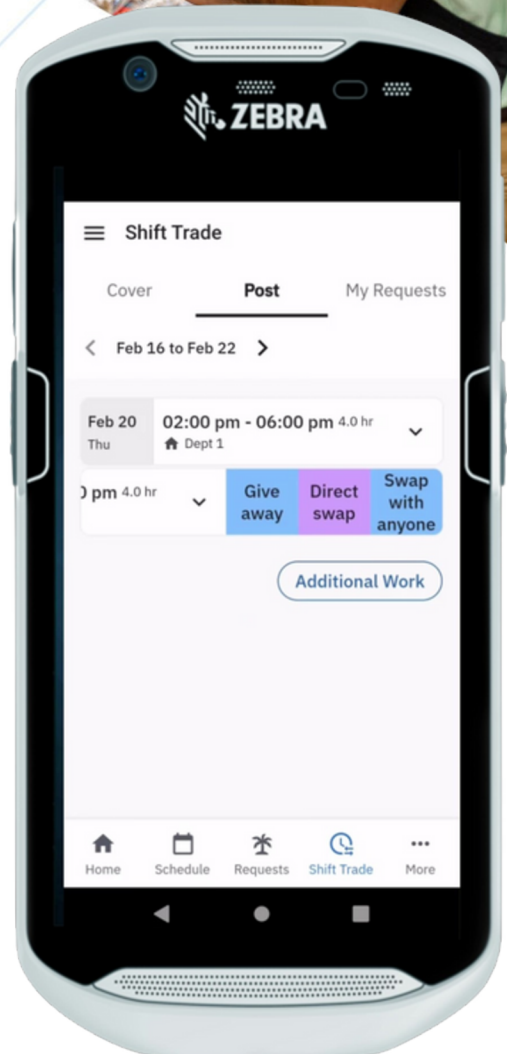

Request Time Off: Submit and track day-off requests, view leave balances, and receive feedback

Set Availability: Define your preferred working hours to ensure schedules align with your needs

Anywhere Access: Manage your schedule on the go with a user-friendly app accessible across different devices

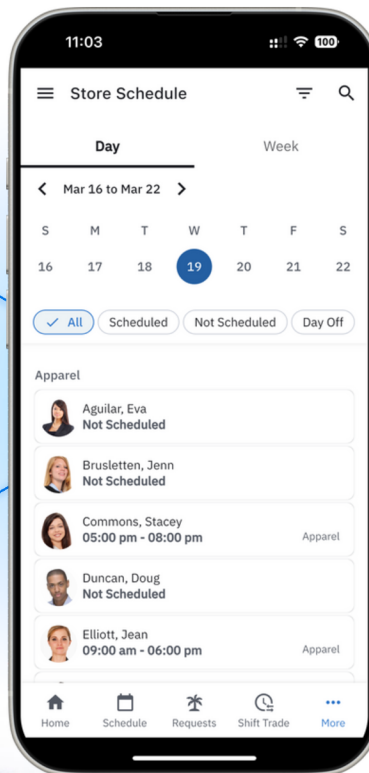

Purpose-Built for the Modern Frontline

Mobile-First:

Give associates unfettered access to their schedules from their mobile devices and meet the expectations of today's connected frontline

Built for Multi-Site:

Enable associates to set their availabilities or pick up shifts at alternate locations in addition to their "home site," filling gaps in their schedules and coverage gaps across your network

Easy to Use:

Provide an intuitive interface for associates to update their availabilities or request changes, with a minimal learning curve required

Flexible:

Empower associates to pick up and trade shifts, customizing their schedules around other obligations to foster a better work-life balance

Drive Employee Engagement

With optimized scheduling

Give your associates greater control over their schedules and free up managers to focus on customer service, rather than juggle shift changes at a desk. Associates can work more efficiently and independently, improving employee engagement and retention.

With Shift, you can increase manager productivity, boost employee morale and improve work-life balance for all employees.
