Workcloud Sync Chat

Workcloud Sync Chat empowers quick and effective collaboration across your organization with real-time messaging capabilities, ensuring employees have the information they need when they need it. Connect your frontline with Workcloud Sync Chat, improving employee productivity so they can create a more powerful customer experience.

Transform Your Workforce with Real-Time Communication

With Workcloud Sync Chat, arm your frontline with powerful collaborative technology they can use to simplify how they work together.

Create a more agile workforce with the ability to send 1:1 and 1:many messages with text, images, audio, and video in real time.

Send important information out to broad audiences in real time with broadcast messaging capabilities.

Streamline communication to your frontline by setting the priority level of different chats.

## Improve Frontline Collaboration and Employee Productivity

Create a better customer experience by fostering real-time collaboration across your frontline.

A Modern Chat Experience

Improve employee adoption and communication with the ability to view chat history, forward chats, identify new chats, pin chats, filter chats, and more.

Improve Task Tracking

From the task list screen, click on to-dos and send via chat to selected users and groups, ensuring that relevant to-dos are addressed quickly and effectively.

Prioritize Urgent Chats

Designate chats as urgent to drive alerts on a regular basis until urgent messages are addressed.

Create Chat Groups

Collaborate in small teams by creating named chat groups that can be edited and adjusted on the fly.
