Strengthening Evidence Management

Protecting Evidence. Upholding the Law.

Digital tracking solutions eliminate paperwork and provide real-time logging with secure custody tracking to reduce errors and prevent tampering, safeguarding the integrity of every case.

Zebra's enterprise-grade mobile computers, barcode and RFID scanners, portable printers, and rugged tablets offer reliable tracking and seamless custody management, built to withstand the demanding conditions law enforcement officials face.

TAG — STORE — PROTECT

Precise Tagging from Collection to Courtroom

Accurate tagging is essential to evidence integrity, ensuring every item is correctly identified and logged to maintain a secure custody trail. Zebra's portable printers, rugged mobile computers and barcode and RFID scanners enable precise, fast tagging and digital logging, eliminating paperwork while reducing errors.

Secure Storage with Real-Time Visibility

Efficient, secure storage depends on real-time location updates and automated inventory management. Zebra's RFID tags, readers, and infrastructure provide continuous tracking and rapid audits, ensuring evidence is securely stored, instantly locatable, and easily retrievable.

Protecting Evidence Integrity

Protecting evidence throughout its lifecycle is vital for integrity and legal compliance. Zebra's digital evidence management solutions reduce human error with precise chain-of-custody documentation and tamper-proof controls, safeguarding authenticity and bolstering case credibility.
