

# Optimise Inmate Tracking and Management with Zebra Technologies

## Efficiency and Security Within Every Wall

In the realm of prison services, effective inmate tracking and management are vital for maintaining security, enhancing operational efficiency, and ensuring the safety of both staff and inmates. Zebra's innovative solutions provide the tools needed to streamline processes, reduce risks, and improve facility management.

### Key Use Cases for Inmate Tracking and Management:

#### 1. Real-Time Location Tracking:

Utilise Zebra's RFID technology to monitor inmate movements in real-time. Ensure precise tracking to prevent unauthorised movements and enhance overall facility security.

#### 2. Automated Headcounts:

Implement Zebra's automated data capture solutions to streamline the headcount process. Reduce manual errors and save time with quick, accurate inmate verification and counting.

#### 3. Behavioural Monitoring:

Leverage Zebra's advanced tracking technology to monitor inmate behaviour patterns. Identify unusual activities or potential conflicts early, allowing for proactive interventions and improved safety.

#### 4. Resource Allocation:

Use Zebra's data analytics tools to optimise resource allocation within the facility. Ensure efficient distribution of staff and resources based on real-time insights and inmate movement trends.

#### 5. Incident Response Management:

Employ Zebra's mobile devices for immediate communication and coordination during incidents. Enhance response times and ensure that staff can quickly access critical information and support.

## Why Choose Zebra?

### Robust and Reliable:

Zebra products are built to withstand the demanding conditions of prison facilities, ensuring consistent and dependable performance.

### Innovative Solutions:

Benefit from leading-edge technology tailored to meet the specific needs of inmate tracking and management.

### Proven Expertise:

Trusted worldwide, Zebra delivers solutions that enhance security, efficiency, and management effectiveness.
