Damaged Bags
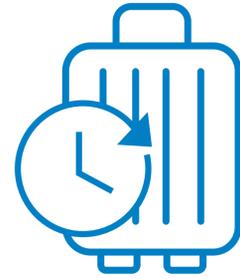

80%
Delayed Bags

Digitally Tagging and Tracking Baggage with RFID

RFID → Decreases Number of Mishandled Bags → Increases Processing Efficiency → Reduces Operating Costs → Improves Customer Satisfaction → Increases Security and Reduces Theft

The Next Step in Advancing Baggage Handling

IATA supports the **global deployment of RFID tracking** for checked airline baggage

RFID reduces operational and mishandling costs, leading to **faster turn-around times** at airports

RFID helps airlines achieve nearly **100% accuracy** in baggage handling
