#### **Additional Features**

- Outstanding print quality, smear and scratch resistance
- Good resistance to moderate and harsh chemicals and solvents
- Removable adhesive which provides excellent adhesion with clean removal on a wide variety of surfaces
- Tear and water resistant
- UL approved for electronic equipment, as a label which will last as long as the product
- BPA free
- Latex free adhesive
- Adhesive approved for indirect food contact according to FDA 175.105

### **Suggested Applications**

- Work in progress labelling where there is exposure to friction and moving parts
- Labelling in the manufacturing of hard disk drives
- Removable labels which are repeatedly scanned
- Removable shelf edge of scan-pallet labels
- Gloss materials are not suitable for fanfold applications

### **Technical Specifications**

|           | Description                     |       | Caliper          |
|-----------|---------------------------------|-------|------------------|
| Facestock | White gloss topcoated polyester |       | 50 microns       |
| Adhesive  | Removable acrylic adhesive      |       | 18 microns       |
| Liner     | White kraft liner               |       | 79 microns       |
|           |                                 | Total | 147 microns ±10% |

Recommended Zebra Printers: P4T™, desktop, mid-range and high-

performance thermal printers

**Recommended Zebra Ribbons:** 4800, 5095, 5100

Minimum Application Temperature: 2°C

When the label is applied, the environment and surface should be above this temperature

Service Temperature Range: -29°C to 150°C

Following correct application and appropriate dwell time (usually 24hrs) the media will withstand this temperature range

**Recommended Storage Conditions:** 1 year duration when stored at 21°C, at

Storage of product before use 50% RH

Expected Life Span in Application: Indoor use, 1 year+

Following correct application and appropriate dwell time (usually 24hrs) we expect, but do not warrant, a life span as indicated

# Suggested Ribbons for Applications requiring Chemical Resistance

|   |     | Weak  |            |            |       |                   | Moderate |         |        |     | Harsh    |        | Extreme |         |           |     |     |        |
|---|-----|-------|------------|------------|-------|-------------------|----------|---------|--------|-----|----------|--------|---------|---------|-----------|-----|-----|--------|
|   |     | Blood | Body Fluid | Salt Water | Water | Window<br>Cleaner | Alcohol  | Ammonia | Bleach | IPA | Gasoline | Grease | Oil     | Acetone | IR Reflow | MEK | TCE | Xylene |
| 5 | 095 | ✓     | ✓          | ✓          | ✓     | ✓                 | ✓        | ✓       | ✓      | ✓   |          | ✓      | ✓       |         |           |     |     |        |
| 5 | 100 | ✓     | <b>√</b>   | ✓          | ✓     | ✓                 | ✓        | ✓       | ✓      | ✓   | <b>✓</b> | ✓      | ✓       |         |           |     |     |        |

<sup>&</sup>quot;\square" indicates acceptable chemical resistance

4800 ribbon will also provide chemical resistance, however requires testing in application

# 180° Angle Peel Adhesion at Room Temperature (N/m):
