RoHS Declaration

To Whom It May Concern

Thank you for your inquiry about the status of WEEE and ROHS compliance regarding Zebra ribbons, labels, and tag stocks. Zebra has confirmed with our suppliers that all Zebra ribbons, labels and tag stocks (Zebra Supplies Products) are EU RoHS Directive 2011/65/EU and amendment 2015/863 compliant adhering to the following requirements:

1. Do not contain Lead (Pb), Mercury (Hg), or Hexavalent chrome (Cr-VI), above 1000 ppm (0.1%) in each homogenous material.
2. Do not contain Cadmium (Cd) above 100 ppm in each homogenous material.
3. Do not contain the restricted types of Polybrominated Biphenyls (PBB) and Polybrominated Diphenylethers (PBDE) above 1000 ppm (0.1%) in each homogenous material.
4. Do not contain the four additional phthalates added to the RoHS directive: Bis(2-Ethylhexyl) phthalate (DEHP), Benzyl butyl phthalate (BBP), Dibutyl phthalate (DBP), or Diisobutyl phthalate (DIBP) above 1000 ppm (0.1%) in each homogenous material.
5. In situations where an exemption applies, the preceding limits, corresponding to the exempted substance(s), may be higher.

This declaration is based on information provided by our suppliers based on reasonable inquiry. In the event one of the ribbons, labels, or tag stocks are altered in any way by someone other than Zebra Technologies Corp., this declaration is rendered invalid.

In regard to WEEE compliance, this directive applies to electrical and/or electronic products that consume electrical energy. As such, Zebra label stock and the Zebra labels printed using Zebra ribbon supplies on your products will not cause any special collection or handling issues at the end of product life in the EU as we understand the WEEE directive today.

For additional information on Zebra's environmental policy, please contact Zebra customer service or visit our website at [www.zebra.com/environment](http://www.zebra.com/environment).

Sincerely,
