No part of this publication may be reproduced or used in any form, or by any electrical or mechanical means, without permission in writing from Zebra. This includes electronic or mechanical means, such as photocopying, recording, or information storage and retrieval systems. The material in this manual is subject to change without notice.

The software is provided strictly on an "as is" basis. All software, including firmware, furnished to the user is on a licensed basis. Zebra grants to the user a non-transferable and non-exclusive license to use each software or firmware program delivered hereunder (licensed program). Except as noted below, such license may not be assigned, sublicensed, or otherwise transferred by the user without prior written consent of Zebra. No right to copy a licensed program in whole or in part is granted, except as permitted under copyright law. The user shall not modify, merge, or incorporate any form or portion of a licensed program with other program material, create a derivative work from a licensed program, or use a licensed program in a network without written permission from Zebra. The user agrees to maintain Zebra’s copyright notice on the licensed programs delivered hereunder, and to include the same on any authorized copies it makes, in whole or in part. The user agrees not to decompile, disassemble, decode, or reverse engineer any licensed program delivered to the user or any portion thereof.

Zebra reserves the right to make changes to any software or product to improve reliability, function, or design.

Zebra does not assume any product liability arising out of, or in connection with, the application or use of any product, circuit, or application described herein.

No license is granted, either expressly or by implication, estoppel, or otherwise under any Zebra Technologies Corporation, intellectual property rights. An implied license only exists for equipment, circuits, and subsystems contained in Zebra products.

Warranty

For the complete Zebra hardware product warranty statement, go to: http://www.zebra.com/warranty.

For Australia Only

For Australia Only. This warranty is given by Zebra Technologies Asia Pacific Pte. Ltd., 71 Robinson Road, #05-02/03, Singapore 068895, Singapore. Our goods come with guarantees that cannot be excluded under the Australia Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Zebra Technologies Corporation Australia’s limited warranty above is in addition to any rights and remedies you may have under the Australian Consumer Law. If you have any queries, please call Zebra Technologies Corporation at +65 6858 0722. You may also visit our website: http://www.zebra.com for the most updated warranty terms.

Service Information

If you have a problem using the equipment, contact your facility’s Technical or Systems Support. If there is a problem with the equipment, they will contact the Zebra Global Customer Support Center at: http://www.zebra.com/support.

Scanner Features and Presentation Mode

1 LED
2 Scan Window
3 Scan Trigger

Aiming - Right/Wrong

Scanning

Hand-Held

Hands-Free
(Presentation)
**Connect Host Interface**

- **NOTE** Cables may vary depending on configuration.

**USB**

Scan **ONE** of the bar codes below. The digital scanner automatically detects the host interface type and uses the default setting. If the default (*) does not meet your requirements, scan another host bar code below.

---

*USB Keyboard HID

IBM Hand-Held USB

IBM OPOS
(IBM Hand-Held USB with Full Scan Disable)

Symbol Native API (SNAPI) with Imaging Interface
Scan ONE of the bar codes below. The digital scanner automatically detects the host interface type and uses the default setting. If the default (*) does not meet your requirements, scan another host bar code below.

*Standard RS-232

ICL RS-232

Wincor-Nixdorf RS-232 Mode A

Wincor-Nixdorf RS-232 Mode B

OPOS/JPOS

Fujitsu RS-232
Keyboard Wedge

Scan **ONE** of the bar codes below. The digital scanner automatically detects the host interface type and uses the default setting. If the default (*) does not meet your requirements, scan the IBM PC/AT and IBM PC COMPATIBLE bar code below.

---

**IBM PC/AT & IBM PC Compatibles**

---

*IBM AT Notebook*
Scan **ONE** of the bar codes below. The digital scanner automatically detects the host interface type, but there is no default setting. Scan one of the bar codes below to select the appropriate port.

- **Hand-Held Scanner Emulation (Port 9B)**
- **Non-IBM Scanner Emulation (Port 5B)**
- **Table-Top Scanner Emulation (Port 17)**

123Scan

123Scan is an easy-to-use, PC-based software tool that enables rapid and easy customized setup of a scanner via a bar code or USB cable. For more information, visit: http://www.zebra.com/123Scan.

Utility Functionality

- Device configuration
- Electronic programming (USB cable)
- Programming bar code(s)
- Data view - scan log (display scanned bar code data)
- Access asset tracking information
- Upgrade firmware and view release notes
- Remote management (SMS package generation).
# Troubleshooting

## Aiming line does not appear

<table>
<thead>
<tr>
<th>Issue</th>
<th>Resolution</th>
</tr>
</thead>
<tbody>
<tr>
<td>No power to scanner</td>
<td>Connect scanner to powered host, or connect power supply</td>
</tr>
<tr>
<td>Aiming line is disabled</td>
<td>Enable aiming line</td>
</tr>
</tbody>
</table>

## Scanner decodes bar code but does not transmit data

<table>

<th>Resolution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Interface cable is loose</td>
<td>Reconnect the cable</td>
</tr>
<tr>
<td>Transmission or format error</td>
<td>Set the proper communication and conversion parameters</td>
</tr>
<tr>
<td>Invalid ADF rule</td>
<td>Program the correct ADF rules</td>
</tr>
</tbody>
</table>

## Scanner does not decode bar code

<table>
<thead>
<tr>
<th>Issue</th>
<th>Resolution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Scanner not programmed for bar code type</td>
<td>Enable that bar code type</td>
</tr>
<tr>
<td>Bar code is unreadable</td>
<td>Ensure the bar code is not defaced; scan a test bar code of the same bar code type</td>
</tr>
<tr>
<td>Bar code is out of aiming line area</td>
<td>Move the aiming line over the bar code</td>
</tr>
</tbody>
</table>

## Scanned data incorrectly displayed on host

<table>

RECOMMENDED USAGE GUIDE - OPTIMUM BODY POSTURE

- Avoid extreme wrist angles
- Avoid bending
- Avoid reaching
Regulatory Information

This device is approved under Zebra Technologies Corporation. This guide applies to Model Number DS2208.

All Zebra devices are designed to be compliant with the rules and regulations in the locations they are sold and will be labeled as required.

Local language translations are available at the following website: www.zebra.com/support.

Any changes or modifications to Zebra equipment not expressly approved by Zebra could void the user's authority to operate the equipment.

Health and Safety Recommendations

!), Ergonomic Recommendations

Caution: In order to avoid or minimize the potential risk of ergonomic injury follow the recommendations below. Consult with your local Health & Safety Manager to ensure that you are adhering to your company's safety programs to prevent employee injury.

• Reduce or eliminate repetitive motion
• Maintain a natural position
• Reduce or eliminate excessive force
• Keep objects that are used frequently within easy reach
• Perform tasks at correct heights
• Reduce or eliminate vibration
• Reduce or eliminate direct pressure
• Provide adjustable workstations
• Provide adequate clearance
• Provide a suitable working environment
• Improve work procedures.

LED Devices

Power Supply

Use ONLY a Zebra approved UL LISTED ITE (IEC/EN 60950-1, LPS/SELV) power supply with electrical ratings: Output 5.2Vdc, min 1.1A, with a maximum ambient temperature of at least 50 degrees C. Use of alternative power supply will invalidate any approvals given to this unit and may be dangerous.
Radio Frequency Interference Requirements - FCC

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

Radio Frequency Interference Requirements-Canada
