Warranty

For the complete Zebra hardware product warranty statement, go to: http://www.zebra.com/warranty.
Introduction
The SAC2000-4000CR four slot spare battery charger charges up to four single spare batteries. The cradle can sit on a desktop or be mounted on a wall. This document provides basic instructions for cradle set up and use.

For best performance, fully charge the scanner battery before using the scanner for the first time. To charge the scanner battery, insert the battery in the cradle. The battery begins charging when the LED indicator on the battery charger starts flashing green. A complete charge of a fully discharged battery can take up to four hours. Charge within the recommended temperature of 32° to 104° F (0° C to 40° C) nominal, 41° to 95° F (5° to 35° C) ideal.

Accessories
- Four screws (for wall mounting, if applicable, not available from Zebra).
- Power supply for desk/wall mounting configuration (p/n 50-14000-148R or PWRS-14000-148R).

Save the shipping container for storing or shipping. Inspect all equipment for damage. If anything is damaged or missing, call an authorized Zebra Support Center immediately.

Related Documentation
- MT2070/MT2090 Quick Start Guide - describes how to get the scanner up and running (p/n 72-117308-xx).
- MT2070/MT2090 User Guide - describes how to use the scanner (p/n 72E-117859-xx).
- MT2070/MT2090 Integrator Guide - describes how to set up the scanner and accessories (72E-117858-xx).
- Enterprise Mobility Developer Kit (EMDK) Help File - provides API information for writing applications.
Unpacking

Carefully remove all protective material from around the equipment and inspect it for damage. If the equipment was damaged in transit, contact Zebra Support. KEEP THE PACKING. It is the approved shipping container and should be used if the equipment ever needs to be returned for servicing.

Features

Front
Mounting the Cradle

To mount the cradle on a vertical (wall) surface:

1. Connect the power cable to the power port and an AC power source.
2. Insert the power supply cable ferrite into the power cable ferrite well on the bottom of the cradle; run the power cable into the cable groove.
3. Use the template included in the *MT2070/MT2090 Integrator Guide* to determine the location of the screw holes.
4. Pre-drill holes to accommodate four screws.
5. Attach the cradle securely to the surface.
6. Insert up to four batteries to charge.
Inserting Batteries
To insert batteries in the cradle, align the connectors on the bottom of the battery with the battery charging connectors in the cradle. Push down on the top of the battery until it clicks into place, engaging the contacts in the cradle.

Charging Batteries
The battery begins charging when the green LED indicator flashes. A complete charge of a fully discharged battery can take up to four hours using external power.

LED Indicators

</table>

- Flashing Green Battery LED: Flashes when battery charges.
- Solid Green Battery LED: Battery is fully charged.
- Solid Blue Cradle LED: Lights when power is applied; off when there is no power applied.
- Fast Flashing Green Battery LED: Error condition; check with system administrator.

Removing Batteries
To remove batteries from the cradle, pull the battery out of the battery well from the top of the battery.

Troubleshooting
If the cradle does not work after following the previous procedures:

- Check the system power.
- Check for loose cable connections.
- Check that batteries are inserted properly in the cradle.

⚠️ CAUTION Do not pour, spray, or spill any liquid on the cradle.
Maintenance

- Protect the cradle from temperature extremes.
- Do not store or use the cradle in any location that is extremely dusty, damp, or wet.
- Use a soft cloth to clean the cradle. If the surface of the cradle becomes soiled, clean it with a soft cloth moistened with a diluted window-cleaning solution.

Regulatory Information

This device is approved under Symbol Technologies, Inc., a Zebra Technologies company. All Zebra devices are designed to be compliant with rules and regulations in locations they are sold and will be labeled as required. Local language translations are available at the following web site: http://www.zebra.com/support.

Any changes or modifications to Zebra equipment, not expressly approved by Zebra, could void the user's authority to operate the equipment.

For use only with Zebra approved and UL Listed mobile computers. Zebra approved and UL Listed accessories and/or Zebra approved and UL Listed/Recognized battery packs.

**CAUTION** Only use Zebra approved and UL Listed accessories, battery packs and battery chargers. Do NOT attempt to charge damp/wet mobile computers or batteries. All components must be dry before connecting to an external power source.

Health and Safety Recommendations

Ergonomic Recommendations

**CAUTION** In order to avoid or minimize the potential risk of ergonomic injury follow the recommendations below. Consult with your local Health & Safety Manager to ensure that you are adhering to your company’s safety programs to prevent employee injury.

- Reduce or eliminate repetitive motion
- Maintain a neutral posture
- Reduce or eliminate excessive force
- Keep objects that are used frequently within easy reach
- Perform tasks at correct heights
- Reduce or eliminate vibration
- Reduce or eliminate direct pressure
- Provide adjustable workstations
- Provide adequate clearance
- Provide a suitable working environment
- Improve work procedures
- Alternate hands whenever possible when performing a repetitive task.

Potentially Hazardous Atmospheres - Fixed Installations

You are reminded of the need to observe restrictions on the use of radio devices in fuel depots, chemical plants etc. and areas where the air contains chemicals or particles (such as grain, dust, or metal powders).

Power Supply

Use only a LISTED approved, type no. 50-14000 or PWRS-14000 (12 Vdc and minimum 3.33 A), direct plug-in power supply, marked Class 2 or LPS (IEC 60950-1, SELV). Use of alternative power supply will invalidate any approvals given to this device and may be dangerous.
Batteries

Only use Zebra battery pack P/N 82-108066-01.

Taiwan - Recycling

EPA (Environmental Protection Administration) requires dry battery producing or importing firms in accordance with Article 15 of the Waste Disposal Act are required to indicate the recycling marks on the batteries used in sales, giveaway or promotion. Contact a qualified Taiwanese recycler for proper battery disposal.

Charging

To charge the mobile device battery, the battery and charger temperatures must be between +32 ºF and +104 ºF (0 ºC and +40 ºC).

Please follow the local regulations when disposing of re-chargeable batteries.

Battery Information

Zebra rechargeable battery packs are designed and constructed to the highest standards within the industry.

However, there are limitations to how long a battery can operate or be stored before needing replacement. Many factors affect the actual life cycle of a battery pack, such as heat, cold, harsh environmental conditions and severe drops.

When batteries are stored over six (6) months, some irreversible deterioration in overall battery quality may occur. Store batteries at half of full charge in a dry, cool place, removed from the equipment to prevent loss of capacity, rusting of metallic parts and electrolyte leakage. When storing batteries for one year or longer, the charge level should be verified at least once a year and charged to half of full charge.

Replace the battery when a significant loss of run time is detected.

Standard warranty period for all Zebra batteries is ninety (90) days, regardless if the battery was purchased separately or included as part of the scanner.

CAUTION Risk of explosion if battery is replaced by an incorrect type.

Dispose of batteries according to instructions.

Battery Safety Guidelines

- Use only genuine Zebra batteries.
- The area in which the units are charged should be clear of debris and combustible materials or chemicals. Particular care should be taken where the device is charged in a non commercial environment.
- Follow battery usage, storage, and charging guidelines found in the user's guide.
- Improper battery use may result in a fire, explosion, or other hazard.
- To charge the mobile device battery, the battery and charger temperatures must be between +32 ºF and +104 ºF (0 ºC and +40 ºC).
- Do not use incompatible batteries and chargers. Use of an incompatible battery or charger may present a risk of fire, explosion, leakage, or other hazard. If you have any questions about the compatibility of a battery or a charger, contact Zebra support.
- For devices that utilize a USB port as a charging source, the device shall only be connected to products that bear the USB-IF logo or have completed the USB-IF compliance program.
- Do not disassemble or open, crush, bend or deform, puncture, or shred.
- Severe impact from dropping any battery-operated device on a hard surface could cause the battery to overheat.
- Do not short circuit a battery or allow metallic or conductive objects to contact the battery terminals.
- Do not modify or remanufacture, attempt to insert foreign objects into the battery, immerse or expose to water or other liquids, or expose to fire, explosion, or other hazard.
• Do not leave or store the equipment in or near areas that might get very hot, such as in a parked vehicle or near a radiator or other heat source. Do not place battery into a microwave oven or dryer.
• Battery usage by children should be supervised.
• Please follow local regulations to promptly dispose of used re-chargeable batteries.
• Do not dispose of batteries in fire.
• Seek medical advice immediately if a battery has been swallowed.
• In the event of a battery leak, do not allow the liquid to come in contact with the skin or eyes. If contact has been made, wash the affected area with large amounts of water and seek medical advice.
• If you suspect damage to your equipment or battery, contact Zebra support to arrange for inspection.

Radio Frequency Interference Requirements-FCC

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna
• Increase the separation between the equipment and receiver
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
• Consult the dealer or an experienced radio/TV technician for help.

Radio Frequency Interference Requirements - Canada
This Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Marking and European Economic Area (EEA)

Statement of Compliance
Zebra hereby declares that this device is in compliance with all applicable Directives, 2014/30/EU, 2014/35/EU and 2011/65/EU. The full text of the EU Declaration of Conformity is available at the following internet address: http://www.zebra.com/doc.

Japan (VCCI) - Voluntary Control Council for Interference
この装置は、情報処理装置等電波障害自主規制協議会（VCCI）の基準に基づくクラスB情報技術装置です。この装置は、家庭環境で使用することを目的としていますが、この装置がラジオやテレビジョン受信機に近接して使用されると、受信障害を引き起こすことがあります。取扱説明書に従って正しい取り扱いをして下さい。
This is a Class B product based on the standard of the Voluntary Control Council for Interference from Information Technology Equipment (VCCI). If this is used near a radio or television receiver in a domestic environment, it may cause radio interference. Install and use the equipment according to the instruction manual.
Waste Electrical and Electronic Equipment (WEEE)

English: For EU Customers: All products at the end of their life must be returned to Zebra for recycling. For information on how to return product, please go to: http://www.zebra.com/weee.

Ελληνικά: Για πελάτες στην Ε.Ε.: Όλα τα προϊόντα, στο τέλος της διάρκειας ζωής τους, πρέπει να επιστρέφονται στην Zebra για ανακύκλωση. Για περισσότερες πληροφορίες σχετικά με την επιστροφή ενός προϊόντος, επισκεφθείτε τη διεύθυνση http://www.zebra.com/weee στο Διαδίκτυο.

Italiano: per i clienti dell'UE: tutti i prodotti che sono giunti al termine del rispettivo ciclo di vita devono essere restituiti a Zebra al fine di consentirne il riciclaggio. Per informazioni sulle modalità di restituzione, visitare il seguente sito Web: http://www.zebra.com/weee.

Service Information

If you have a problem with your equipment, contact Zebra Support for your region. Contact information is available at: http://www.zebra.com/support

If you purchased your business product from a Zebra business partner, contact that business partner for support.

Before contacting, have the model number and serial number at hand. If your problem cannot be solved by Zebra Support, you may need to return your equipment for servicing and will be given specific directions.

Zebra is not responsible for any damages incurred during shipment if the approved shipping container is not used. Shipping the units improperly can possibly void the warranty.

For the latest version of this guide go to: http://www.zebra.com/support.
