Symbol reserves the right to make changes to any product to improve reliability, function, or design.

END-USER LICENSE AGREEMENT

Software. Symbol Technologies (hereafter “Seller”) hardware Products are warranted against defects in workmanship and materials for Symbol Technologies support number provided in the documentation for the DEVICE. Should you have any questions concerning this EULA, or if you desire to contact Symbol Technologies for any other reason, please refer to the address provided in the documentation for the DEVICE. For the latest version of this guide go to:  http://www.symbol.com/manuals.

CAPTION

All life and intellectual property rights in and to the SOFTWARE (including but not limited to any images, photographs, illustrations, icons, data, images, and text) and any accompanying printed materials, are owned by Seller or its suppliers. No part of the SOFTWARE, its documentation, or any copy thereof, may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopying, recording, or otherwise, without the prior written permission of Seller.

LIMITATIONS  OF  LIABILITY

Seller  shall  not  be  liable  for  any  direct,  indirect,  special,  incidental,  or  consequential  damages  (including,  without  limitation,  lost  profits  or  lost  savings)  arising  out  of  or  in  connection  with  the  use  or  performance  of  the  SOFTWARE.  Some  states  do  not  allow  the  exclusion  of  incidental  or  consequential  damages,  so  this  limitation  may not apply to you.

YOU  ACCORD  YOURSELF  WITH  THE  FOREGOING  LIMITATIONS  AND  DISCLAIMERS  AS  TO  THE  FULL  EXTENT  AND  TO  THE  MANNER  PERMITTED  BY  LAW.

Seat Belt Reminder

© 2004 Symbol Technologies, Inc.

You may not reverse engineer, decompile, or disassemble the SOFTWARE, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation.

More information...

You may use the DEVICE Software on one (1) copy of such DEVICE Software onto the DEVICE as a replacement copy for the existing DEVICE Software, and use it in accordance with this EULA. If any software component(s) is provided by Symbol Technologies separate from the DEVICE on media such as a ROM disk(s) or via web download or other means, and labeled “For Upgrade Purposes Only”, you may (i) install and use one (1) copy of such SOFTWARE onto the DEVICE as a replacement copy for the existing DEVICE Software, and use it in accordance with this EULA.

You may permanently transfer all of your rights under this EULA only as part of a sale or transfer of the DEVICE, whether or not a permanent transfer of the SOFTWARE with the DEVICE is required and then ask for your consent before the DRM Upgrade is downloaded. Third party DRM Software may do the same. If you do not have a license to use the SOFTWARE, you must remove the SOFTWARE from the DEVICE prior to transferring ownership of the DEVICE.

Revocation does not alter the DRM SOFTWARE’s ability to play unprotected content. A list of revoked DRM SOFTWARE is sent to the user at the time the software is installed. The above warranty provisions shall not apply to any Product (i) which has been repaired, tampered with, altered or modified, or (ii) which is the subject of any warranty return.
* This device incorporates the International Roaming feature (IEEE802.11d) which will ensure the product operates on FCC RF exposure compliance requirements, and should be avoided. The use of third-party belt-clips, holsters, and similar accessories should not contain this device and the body. The use of this device is recommended when using a mobile computer or bar code scanner. For more information on Symbol batteries, please visit: http://mysymbolcare.symbol.com/battery/batbasics1.html. The standard warranty period for all Symbol batteries is 30 days, regardless if the battery was purchased separately or included as part of the mobile computer or bar code scanner. For more information on the battery, visit: http://mysymbolcare.symbol.com/battery/batbasics1.html.

**Radio Devices**

Symbols devices using lasers comply with US 21CFR1040.10, and EIBUS-25 - 1995. EN60825-1:1994+A1-1:1996. The laser classification is marked on one of the labels on the device. For Class 2 laser scanners use a low-power, visible light diode. As with any very bright light source, such as this laser, the user should avoid staring directly into the light beam. Allergies and exposure to a Class 2 laser is not known to be harmful.

**Scanner Labeling**

In accordance with Class 5, IEC 825 and EN60825, the following information is provided to the user:

**Radio Transmitters**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Radio Frequency Interference Requirements - Canada**

This B Class digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

**Radio Transmitters**

This devices comply with RES 219 of Industry & Science Canada. Operation is subject to the following two conditions: (1) this device may not cause harmful interference and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Labeling**

The term "C" before the radio certification only signifies that Industry Canada technical specifications were met.

---

**CE Marking and Economic Area (EEA)**

The device is in compliance with the essential requirements and other relevant provisions of Directives 1995/95/EC, 89/336/EEC and 73/23/EEC. Declaration of Conformities may be obtained from: http://www.symbol.com/docx/.

---

**Other Countries**

Mexico - Restricted Frequency Range to: 2.400 - 2.483 GHz.

Israel - Restricted Frequency Range to: 2.418 - 2.457 GHz.

Sri Lanka - Restricted Frequency Range to: 2.400 - 2.430 GHz.

---

**Battery Information**

Symphonic rechargeable battery packs are designed and constructed to the highest standards within the industry. However, there are limitations to how long a battery can operate or be stored before replacement. Many factors affect the actual life cycle of a battery pack, such as heat, cold, harsh environmental conditions and severe drops. When batteries are stored over six (6) months, some irreversible deterioration in overall battery quality may occur. Storing batteries discharged in a dry, cool place, removed from the equipment to prevent loss of capacity, rusting of metallic parts and electrical leakage. When storing batteries for one year or longer, they should be charged and discharged at least once a year. An electrolyte leakage is observed, avoid any contact with affected area and properly dispose of the battery. Replace the battery when a significant loss of run time is detected. Batteries must be charged within the 32° to 104°F (0° to 40°C) temperature range.
