The Micro-USB Port
The NEO Cradle Modem can act as a USB Client.

1. Make certain the switch at the back of the cradle is positioned to the left to activate the USB port.
2. Insert the smaller end of the USB cable in the micro-USB port.
3. Insert the standard-sized end of the USB cable into the host computer.

The Dial-up Modem Port
The NEO Cradle Modem can act as a Modem.

1. Make certain the switch at the back of the cradle is positioned to the right to activate the modem port.
2. Insert the RJ-11 cable into the modem port.
3. Insert the opposite end of the RJ-11 cable into a wall outlet.

Note: Do not connect to a digital phone line as this may damage the modem.

Power adaptor and plugs
USB Micro-AB to A cable
RJ-11 phone cable

Features: Front, Ports, And Battery Charge Well

Getting Started
1. Choose a Plug for the Universal Power Adaptor. The adaptor may already be fitted with the plug you need.

2. Insert the Spare Battery. Allow the NEO and the spare battery to charge for three hours before first use.

3. Connect the Cradle Modem to External Power.

4. Insert the NEO to Charge its Battery.

Mounting The Cradle Modem
The Cradle Modem can be fixed to the optional Wall Mount Bracket (model PX3011), or to another surface, using two broad-headed screws.

Mounting screw (quantity 2)
Mounting holes (quantity 2)
Rubber feet (quantity 4)
Insert the screws into the holes on the base of the unit, then slide the unit towards the back to secure it.

Note: The position of the mounting holes is indicated by markings on the front and sides of the Cradle Modem.

Features: Back, Ports, And Battery Charge Well

Spare Battery Well

Note: During charge, the LED indicator on the NEOs is YELLOW until charging reaches 75%. Between 75% and 95%, the indicator flashes GREEN slowly, and, above 95%, the indicator is GREEN continuously. The LED indicator on the Docking Station behaves the same when a spare battery is being charged.

Note: Use the universal AC power supply approved by Psion Teklogix for use with the Docking Station.

Note: Full battery performance is only reached after the first few charge/discharge cycles.
