› Slide the microSD door to the left to unlock it. Flip it open.
› Slide the microSD card onto the guides on the SD card door.
› Close the microSD door, and slide it to the right to lock it.

SIM card

› Slide the SIM card metal door latch to the right to unlock it. Flip it open.
› Slide the SIM card into the guides on the SIM card door.
› Close the SIM card door, and slide the metal door latch to the left to lock it.

GETTING STARTED

1 For Narrowband Radio
Attach the antenna, following the instructions on the package, before inserting the battery.

2 Insert the Battery

Press down firmly on both sides of the battery to ensure that it is securely seated in Omnii.

OVER
**RESETTING THE UNIT**

To perform a warm reset:

Press the `FN` key and the `ENTER/Power` key simultaneously for a few seconds.

During a warm reset, running programs are halted. The contents of RAM, flash memory, and the registry are preserved.

---

**Charge the Battery**

The power adaptor can be plugged into a snap module attached to Omnii.

---

**Install and Configure Data Transfer Software**

Use ActiveSync® (Windows® XP or earlier) or Mobile Device Center® (Windows Vista® or Windows 7®) to establish a connection between Omnii and the PC and synchronize your e-mail, contacts, and so on.

For either ActiveSync or Mobile Device Center, go to the Microsoft Download Center:

---

**To Turn Omnii Off, Do One of the Following:**

- Press the `FN` key followed by the `ENTER/Power` key, or
- In the Start menu, choose Shutdown>Suspend.

---

**To perform a cold reset:**

Press the `SYM` key, the `FN` key, and the `ENTER/Power` key simultaneously for six seconds.

Running programs are halted and RAM memory is cleared. The contents of flash memory and the registry are preserved. The operating system is reloaded.

---

**Charge the Battery**

The power adaptor can be plugged into the desktop docking station.

---

**Snatch module**

Connect Omnii to the PC

Connect through a docking station or a snap module with a USB port.

---

**Install and Configure Data Transfer Software**

Use ActiveSync® (Windows® XP or earlier) or Mobile Device Center® (Windows Vista® or Windows 7®) to establish a connection between Omnii and the PC and synchronize your e-mail, contacts, and so on.

For either ActiveSync or Mobile Device Center, go to the Microsoft Download Center:

---

**To perform a cold reset:**

Press the `SYM` key, the `FN` key, and the `ENTER/Power` key simultaneously for six seconds.

Running programs are halted and RAM memory is cleared. The contents of flash memory and the registry are preserved. The operating system is reloaded.

---

**Turn the Unit On**

Press and hold down the `ENTER Power` key for at least one second.

---

**IMPORTANT:**

Resetting may result in data loss.
