Regulatory Information
The device is approved under Zebra Technologies Corporation’s EU Declaration of Conformity.

Radio Frequency Interference Requirements - Canada
This device is designed to operate in accordance with the Canadian Department of Innovation, Science and Economic Development Canada ICES-003 standard and complies with the requirements of RSS-210 and RSS-220.

Marking and European Economic Area (EEA)
This device is designed to operate in accordance with all applicable Directives, 2014/30/EU, 2014/35/EU and 2011/65/EU.

Zebra hereby declares that this device is in compliance with all applicable Directives, 2014/30/EU, 2014/35/EU and 2011/65/EU.

Statement of Compliance
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Locate the receiver as far as practicable from the equipment.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
