Terms of Use

Proprietary Statement

This manual contains proprietary information of Zebra Technologies Corporation and its subsidiaries ("Zebra Technologies"). It is intended solely for the information and use of parties operating and maintaining the equipment described herein. Such proprietary information may not be used, reproduced, or disclosed to any other parties for any other purpose without the express, written permission of Zebra Technologies.

Product Improvements

Continuous improvement of products is a policy of Zebra Technologies. All specifications and designs are subject to change without notice.

Liability Disclaimer

Zebra Technologies takes steps to ensure that its published Engineering specifications and manuals are correct; however, errors do occur. Zebra Technologies reserves the right to correct any such errors and disclaims liability resulting therefrom.

Limitation of Liability

In no event shall Zebra Technologies or anyone else involved in the creation, production, or delivery of the accompanying product (including hardware and software) be liable for any damages whatsoever (including, without limitation, consequential damages including loss of business profits, business interruption, or loss of business information) arising out of the use of, the results of use of, or inability to use such product, even if Zebra Technologies has been advised of the possibility of such damages. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

```

Device Location

The BlueFletch Launcher can determine a device's store/site based on its location, IP range, or access point MAC addresses. The example CSV below, `sitelist.csv`, should be saved to the following location on the device:

```
/sdcard/Android/data/com.bluefletch.launcher/files/blueLauncher/sitelist.csv
```

If you use a `sitelist.csv` file, ensure that the `launcher.json` includes:

```
"settings":{
```

```

...
"useSiteInfoService" : true,
...
}
    
```

For additional information on using the `sitelist.csv`, refer to the [BlueFletch Documentation](#).

Example CSV Data

A	B	C	D	E	F	G
siteid	sitename	latitude	longitude	iprange	subnet	apmacaddress
1001	ATL	33.7707005	-84.3672268			
2001	LGA	34.159579	-84.239605			
3001	EWR	34.167373	-84.330806			
4001	LAX	34.073189	-84.293763			
5001	IAD	34.073189	-84.293763			

Configure the Profile Client

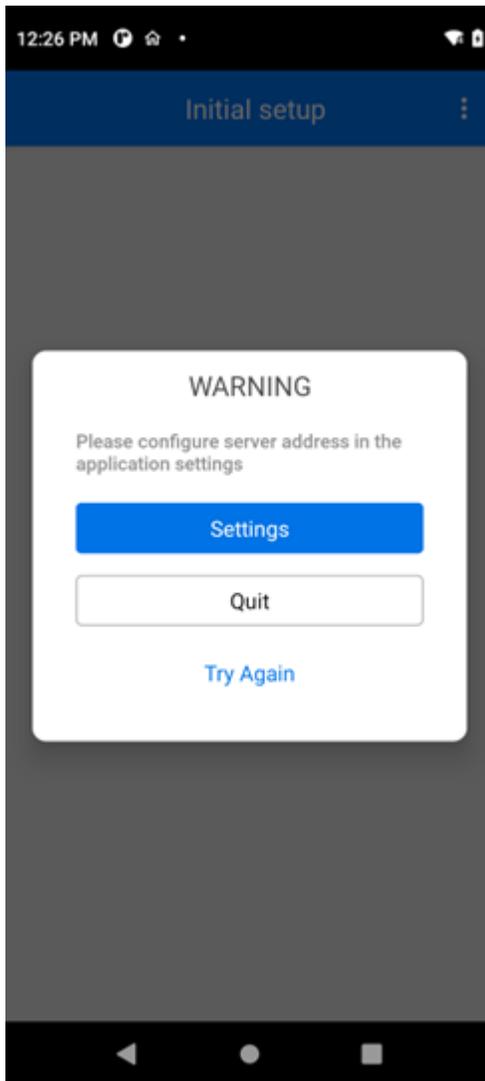

Configure the Workcloud Communication Profile Client with your customer ID and the server URL. Contact your Zebra representative for your customer ID and the server URL.

NOTE: The Profile Client configuration can be automated and configured using a JSON file that is pushed from an MDM.

1. Open the Profile Client.

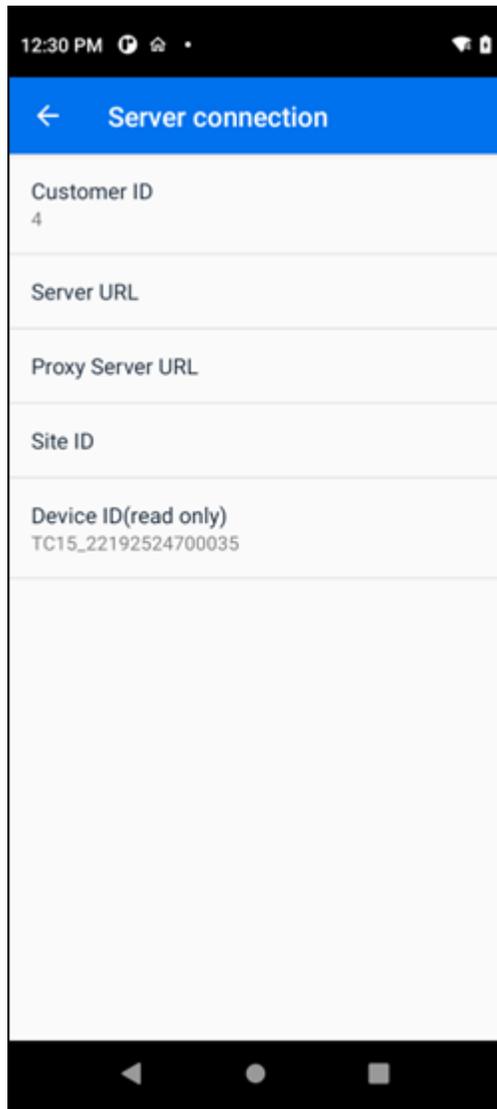

2. In the **Warning** screen, tap **Settings**.

3. Tap **Server connection**.

4. Enter your **Customer ID**.

5. Enter the **Server URL**.

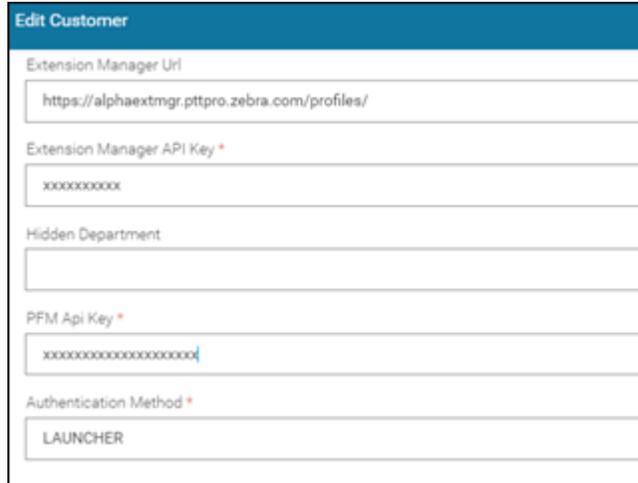

The **Device ID** field displays the model and serial number of the device.

6. Save the **Settings** by tapping the device's back button.
7. Close the application.

Profile Manager Tenant Configuration

A Zebra administrator configures Workcloud Communication Profile Manager to use the BlueFletch Launcher.

- Select **Edit Customer** and choose LAUNCHER from the **Authentication Method** menu.

Edit Customer	
Extension Manager Url	https://alphaextmgr.pttpro.zebra.com/profiles/
Extension Manager API Key *	xxxxxxxxxx
Hidden Department	
PFM Api Key *	xxxxxxxxxxxxxxxxxxxxxx
Authentication Method *	LAUNCHER

Creating a Relying Party Trust on the ADFS 2016 Server

PTT Pro for Android and Workcloud Communication Profile Manager require establishing a trusted relationship with the customer's Active Directory Federation Service (ADFS).

Refer to the [AD/ADFS Integration Guide for PTT Pro and Profile Manager](#) guide to create a relying party trust.

Revision History

Changes to the guide are listed below:
